
Fiscal Note
Bill Number SB0086

19-Jan-99

12:40 PM

This bill requires health care providers caring for patients involved in a motor vehicle accident to report any evidence of alcohol or drug abuse to law enforcement agencies. Any additional caseload on the Court System and local law enforcement and prosecuting agencies would probably be relatively minor, and will be handled within existing resources.

Individual and Business Impact

For any health care provider charged with failure to report such evidence, there could be some attorney and court costs. If convicted, there could be a fine and other consequences related to a class - B misdemeanor.
