

SECOND AMENDED NOTE

Passage of this bill as amended will not required additional State funds. However, since any costs would come out of existing budgets, potential impacts are now estimated at approximately \$870,000. Of that amount, \$502,300 would come from General Fund, \$56,300 from Uniform School Fund, and \$44,300 from Transportation Fund. The remaining costs come from non-state funds.

Individual and Business Impact

The total value of the fiscal note would flow to those State employees who would exercise their option to convert their unused annual leave hours.
