Rental Application Fees

30-Jan-01

4:32 PM

State Impact

No significant State or local government fiscal impact.

Individual and Business Impact

This legislation could increase the up-front costs up to \$75 for a person attempting to obtain rental housing. Alternatives are provided to reduce this cost. The legislation may also make it easier for potential tenants to recover application fees through small claims court, if the fees are collected and used inappropriately by the landlord.
