

**State Impact**

Any additional effort required of State agencies by this bill can be absorbed within existing budgets.

---

**Individual and Business Impact**

Provisions of this bill may have a small fiscal impact by limiting follow-up physicals to those with a specific type of license. This may have a financial impact on some medical practitioners and could increase costs to insurers. Any impact to insurers is estimated to be minimal. It is assumed any additional costs will be passed on to insurance companies and consumers.
