State Impact

This bill authorizes the Department of Health to establish and operate three new medical examiner's offices as funding is available. It is estimated that the net cost to establish one office could be up to \$1,053,500 with ongoing annual operating expenses between \$350,000 and \$500,000, depending on whether the facilities are built or leased. It would take legislative General Fund appropriation to establish these offices.

Individual and Business Impact

No fiscal impact until after the offices are established.
