
H.B. 428 - Nonresident Tuition Amendments

Fiscal Note

2010 General Session
State of Utah

State Impact

Approximately 400 identified non-citizen students currently generate about \$1.5 million in tuition to various institutions in the Utah System of Higher Education. To the extent that those students choose to forgo higher education due to the price change enacted by this bill, the Utah System of Higher Education would experience revenue losses and cost reductions.

Individual, Business and/or Local Impact

Non-citizen students would be affected by the bill. Enactment of this bill likely will not result in direct, measurable costs and/or benefits for businesses, or local governments.
