Enacting this bill could increase the amount the state will collect per applicable citation from $100 to $120. Surcharge revenue could also increase. There were 1,394 similar convictions in the most recent fiscal year (34 at the state level and 1,360 at the local Justice Court level). Assuming the same number of convictions, state revenue could increase by $10,100 annually beginning FY 2016 from increased fine and surcharge collections.

Notes on Notes

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
