

Performance Note
HB0096 - Single Sign-on
Business Database
Sponsor: Rep. Cutler, Bruce R.

Performance Note Report

Author: stweiss

Agency: Department of Technology Services

Funding For:

New Services or Benefit

Public Benefit:

Purpose: The purpose of the new service is to provide a single sign on web portal and database for businesses needing to conduct business with the State of Utah.

Services: The services provided by the funding increase include a database for businesses needing to conduct business with the State of Utah. The single sign on portal and database will allow businesses to go to one place to contact multiple state agencies.

Expected Outcome: The expected outcome of the new single sign on database is to provide efficiencies in conducting business with the State of Utah. Businesses will be able to save time and money by going to one place online to conduct all business with multiple agencies.

Implementations and Resources: The bill will be implemented by the Department of Technology Services in conjunction with many state agencies including: Database, Programmers, Security, Hosting, Storage, Outreach and Support, and other IT hardware and software resources.

How: The proposed activities will require the Department of Technology Services to allocate more resources to the project.

By rule, performance notes are provided by the governmental entity that will supervise the new agency or administer the new program. Performance notes are not written by the Office of the Legislative Fiscal Analyst.
