**Local Government**

UCA 36-12-13(2)(c)

If a fund within a local government's budget has a deficit, enactment of this bill requires it to deposit five percent of the total revenue in the last completed fiscal year from available balances in another fund; this will not impact overall budgets, but may shift balances between funds. Enactment of this bill could also result in a shift between tax types when partial payments are made; this bill allows a taxpayer to direct the allocations rather than a county treasurer.

**Individuals & Businesses**

UCA 36-12-13(2)(d)

Enactment of this legislation likely will not result in direct, measurable expenditures by Utah residents or businesses.

**Performance Note**

JR4-2-404

No performance note required for this bill

**Notes on Notes**

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
