

Performance Note
HB0122 - Medicaid Waiver
for Postpartum Mental Health
Coverage
 Sponsor: Rep. Redd, Edward H.

Performance Note Report

Author: Kim Beck
 Agency: Department of Health

Funding For:

New Services or Benefit

Public Benefit:

Purpose: The purpose of the new benefits is to help with mental health issues for postpartum women for a period of up to a year after the pregnancy ends.

Services: Inpatient and outpatient mental health and substance use disorder treatment.

Expected Outcome: It is expected that women with mental health or substance use disorders will receive treatment for their illness(es).

Implementations and Resources: Additional benefits will be added to the defined group of postpartum women to the Primary Care Network program benefits that they are eligible to receive.

How: UDOH will ensure that the current PCN benefits are modified to include the increased benefits for this population of women.

Performance Measures

Goal

Title: New enrollment

Description: Women will have access to mental health and substance use disorder treatment following pregnancy.

Collection Method: Medicaid will be able to show how many women utilize the new benefit(s) and how much was spent on those benefits.
