**Local Government**

UCA 36-12-13(2)(c)

Enactment of this bill could lead to costs for a school district that chooses to install an automated traffic enforcement safety device on a school bus. Enactment of this bill could lead to revenues to a school district ranging from \$20 to \$100 per class C misdemeanor conviction when the school district's automated traffic enforcement safety device provides evidence of a violation that results in a conviction, and it could lead to revenues to local governments ranging from \$40 to \$400 per class C misdemeanor conviction.

**Individuals & Businesses**

UCA 36-12-13(2)(d)

Enactment of this bill could lead to costs for a private school that chooses to install an automated traffic enforcement safety device on a school bus. Enactment of this bill could lead to revenues to a private school ranging from \$20 to \$100 per class C misdemeanor conviction when the private school's automated traffic enforcement safety device provides evidence of a violation that results in a conviction. Enactment of this bill could lead to fines and surcharges ranging from \$135 to \$675 for individuals who are convicted of a class C misdemeanor.

No performance note required for this bill

**Notes on Notes**

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
