Enactment of this bill directs the State Board of Education to issue a request for proposal (RFP) in FY 2020 for one or more additional home-based preschool providers as outlined in the bill. The bill also provides that the appropriation for any additional providers selected by the State Board of Education be funded through a separate appropriation. The cost for one or more additional providers is unknown at this time. Using the original UPSTART program as an example, the program started in FY 2008 with an estimated cost of \$2.5 million ongoing. The final cost to provide additional providers may vary depending on the RFP, the size of additional programs selected, and the amount appropriated by the Legislature.

Notes on Notes

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
