Performance Note Report

---

Author: Scott Baird

Agency: Department of Environmental Quality

Funding For:

---

Serving a New or Larger Population

Public Benefit:

---

**Purpose:** To set standards and administer controls: To maintain water quality in watersheds to protect human health, and for the the construction and operation of city waterworks located inside and outside a city's limits.

**Services:** The services provided by the funding increases include stakeholder input and public involvement for rule development, administration of the program, and enforcement actions to ensure compliance with standards.

**Expected Outcome:** The expected outcome of the new program is water quality that meets standards sufficient to protect human health.

**Implementations and Resources:** Under this legislation DEQ would assume additional responsibilities including regular inspections and enforcement of standards.

**How:** The proposed activities will include stakeholder input and public involvement for rule development, administration of the program, and enforcement actions to ensure compliance with standards.

Performance Measures

---

Goal

**Title:** Percent of waters that meet standards to sufficiently protect human health

**Description:** Percent of waters that meet standards to sufficiently protect human health

**Collection Method:** Water quality samples will be collected by DEQ inspectors and tested internally or externally by the state health lab or other qualified labs to ensure proper protocol is followed.
