

Performance Note
HB0157 - Justice Reinvestment
Amendments
 Sponsor: Rep. Potter, Val K.

Performance Note Report

Author: Cliff Butter

Agency: Utah Department of Corrections

Funding For:

Serving a New or Larger Population

Public Benefit:

Purpose: The purpose of the legislation is to expand the number of treatment modalities available to offenders who are being held in county jails as part of the State's Jail Contract Program.

Services: The services provided will expand the treatment opportunities for alternative treatment programs related to vocational training or cognitive behavioral therapy.

Expected Outcome: The expected outcome of the expansion will be an increased opportunity for offenders to receive treatment for these programs.

Implementations and Resources: Implementation will occur through the expansion of the jail contract rate to reimburse the counties for expending additional treatment resources for these programs.

How: By providing additional treatment opportunities for vocational training and cognitive behavior therapy, offenders will receive services that are highly likely to improve their chances of a successful parole.

Performance Measures

Goal

Title: The number of program completers.

Description: Count of offenders who complete the new treatment programs being offered.

Collection Method: The OTRACK system will keep track of start dates, end dates and completion type for all program participants.
