

Performance Note
HB0257S01 - Sentinel Landscape
Designation
Sponsor: Rep. Knotwell, John

Performance Note Report

Author: Michael Norton

Agency: Utah National Guard

Funding For:

Public Benefit:

Purpose: The purpose of the West Traverse Sentinel Landscape Act is to identify lands adjacent to Camp Williams that are important to the nation's defense mission; preserve and enhance the relationship between adjacent landowners and Camp Williams; and create incentives to encourage adjacent landowners to adopt land management practices consistent with Camp Williams's military mission.

Services: This act establishes a committee to identify lands to be included in the designated sentinel landscape; develop strategies and recommendations to encourage landowners within the sentinel landscape to voluntarily participate in and begin or continue land uses compatible with Camp Williams's military mission; and determine the appropriate level of state resources required to adequately protect Camp Williams's military mission; and conduct and coordinate public awareness and education efforts to ensure surrounding communities are informed and given the opportunity for public input.

Expected Outcome: The expected outcome of this program is that lands surrounding Camp Williams will be used for purposes compatible with the military mission of Camp Williams while providing a buffer for the protection of military and law enforcement training, enhance the quality of life for Utah residents and local communities, and develop land use practices that will also protect native wildlife and wildlife habitat.

Implementations and Resources: The Utah National Guard has the responsibility to establish the committee which will establish rules, request resources and manage any funds. Federal funds are available to support the Army Compatible Use Buffer (ACUB). These federal funds do not come to the Utah National Guard, but are awarded through an established process by the National Guard Bureau. The Utah National Guard helps coordinate the identification and award of ACUB funds concerning Camp Williams. The ACUB program generally requires a 25% match from a partner which can be made through a variety of methods. This act establishes a committee to identify and coordinate priorities. It establishes a fund whereby the Utah National Guard may assist potential partners in meeting the 25% match requirement.

How: This program will help ensure long term sustainability of military training at Camp Williams by identifying and coordinating participation in the ACUB program. It will assist potential partners in obtaining required funding to participate in the program. It provides a fund to receive and distribute any non federal funds that may become available. UNG will coordinate to establish the committee. UNG will

provide the staff support to the committee to: host committee meetings; conduct public input meetings as required; request budget through the Governor's office to the Legislature; manage the receipt and distribution of funds; provide the required reports. We intend this to be accomplished with existing UNG personnel.

Performance Measures

Goal

Title: Landowner and stakeholder outreach.

Description: Engage landowners and stakeholders who own or are responsible for parcels identified in the Department of Army approved Army Compatible Use Buffer (ACUB) program mapped area to raise awareness and education on the Sentinel Landscape concept. There are potentially federal funds available for the Army Compatible Use Buffer (ACUB) program. These federal funds require a 25% partner match. The committee will identify potential funding and assist partners in securing federal funds to participate in the program. Where partners cannot meet the match, the committee will try to identify other funding sources and may make requests as needed.

Collection Method: Identify and prioritize a list of areas around Camp Williams, most critical to being compatible with military training, which should potentially be in the West Traverse Landscape. During the outreach process, we will gather and prioritize potential funding needs. When the committee feels state funding is appropriate, they will recommend requests through the Utah National Guard (UNG), through the Governor's budget process, to the Legislature. UNG will report on any state funds received and distributed annually to the Executive Appropriations Committee with the rest of the UNG budget. We anticipate this process could take years.
