

Performance Note HB0472 - Medicaid Expansion Revisions

Sponsor: Rep. Spendlove, Robert M.

Performance Note Report

Author: Kim Beck

Agency: Department of Health

Funding For:

Serving a New or Larger Population

Public Benefit:

Purpose: Expand Medicaid coverage to adults, age 19-64, in the coverage gap.

Services: Medical care provided in an inpatient and outpatient hospital setting, care provided by physicians or other medical professionals, pharmaceutical products and other medical services.

Expected Outcome: By FY 2024, it is expected that 87,500 adults will be enrolled in the new program. This coverage is expected to provide services to newly enrolled adults and reduce uncompensated care.

Implementations and Resources: UDOH will add newly eligible adults to the Medicaid program. Eligibility determination and case management will be handled by DWS through eREP. Claims payment will be made through MMIS (and then PRISM when it is implemented).

How: When DWS accepts and approves applications, newly eligible adults will be enrolled in Medicaid. When UDOH pays claims, medical providers will receive reimbursement for services provided to newly eligible adults. When medical providers are reimbursed for services that previously had been provided as uncompensated care, uncompensated care will be reduced.

Performance Measures

Goal

Title: Medicaid Expansion Enrollment.

Description: Newly eligible adults ages 19-64 enrolled in Medicaid.

Collection Method: Medicaid Enrollment information will be sent to Department of Health from Department of Workforce Services and can be queried by DOH.
