

Performance Note
SB0204 - Secondary Water
Metering Requirements
Sponsor: Sen. Anderegg, Jacob L.

Performance Note Report

Author: Gary Ricks

Agency: Department of Natural Resources

Funding For:

New Services or Benefit

Public Benefit:

Purpose: The purpose of this bill is to meter secondary water in the State.

Services: As stated in lines 36 - 42 of the bill, a secondary water provider that begins providing new service on or after May 9, 37 2018, shall meter the use of water by an end consumer. A secondary water supplier that primarily supplies pressurized secondary water to: a) commercial, industrial, or institutional users shall meter the use of water by July 1, 40 2023; b) residential users shall meter the use of water by July 1, 2026; and c) agricultural users shall meter the use of water by July 1, 2028.

Expected Outcome: Improved data on secondary water use.

Implementations and Resources: Secondary water providers are required to meter water and provide water use data to the state engineer and the Division of Water Resources.

How: The Divisions of Water Rights and Water Resources will track progress reported by secondary water providers.

Performance Measures

Goal

Title: Annual Report of Progress.

Description: As systems report on an annual basis, the number of connections retrofitted will be able to be tracked and compared to the targets set in lines 36 to 42.

Collection Method: Annual report to the Division of Water Rights and Water Resources.

	2018	2019	2020
% of System Metered	0.00	25.00	25.00
Baseline	0.00	0.00	0.00

By rule, performance notes are provided by the governmental entity that will supervise the new agency or administer the new program. Performance notes are not written by the Office of the Legislative Fiscal Analyst.
