This legislation appropriates \$100,000 ongoing beginning in FY 2020 and \$500,000 one-time in FY 2020 from the General Fund Restricted - Firearm Safety Account to the Division of Substance Abuse and Mental Health to 1) produce a firearm safety brochure and procure cable-style gun locks and distribute these items to various entities, 2) create and distribute a suicide prevention education course, 3) provide grants to federally licensed firearm dealers to facilitate attendance at the education course and to provide the brochures and gun locks to certain customers, and 4) administer a redeemable coupon program for gun safe purchases. Administration of these directives could cost the Division of Substance Abuse and Mental Health \$90,000 one-time in FY 2020 for personnel to develop the programs and \$30,000 ongoing beginning in FY 2020 plus \$20,000 one-time in FY 2020 for program costs and the technology system to administer the redeemable coupon program. After these administration costs, there would be \$460,000 in FY 2020 and \$70,000 in FY 2021 and beyond available for grants to dealers and redeemable coupons. Enactment of this legislation could cost the Bureau of Criminal Investigation \$20,000 ongoing beginning in FY 2020 and \$5,000 one-time in FY 2019 from the Concealed Weapons Account to produce, host, and track views of a firearm safety and suicide prevention video that would be required for individuals renewing a firearm permit. This legislation could further cost the Bureau of Criminal Investigation \$3,200 one-time in FY 2019 from the

Concealed Weapons Account for staff time related to producing the video; the bureau has indicated it can absorb these costs in its existing budget.

**Notes on Notes**

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
