Enactment of this legislation could cost the Department of Health \$7,800 ongoing from the General Fund, beginning in FY 2020, for the time required for Office of the Medical Examiner staff to consult with the Division of Occupational and Professional Licensing regarding deaths related to controlled substances. Furthermore, enactment of this legislation codifies existing administrative procedures that the Department of Occupational and Professional Licensing already follows; this legislation provides greater structure, but not greater administrative burden, to the process that was funded during the 2018 General Session through H.B. 127. Any marginal impacts would be absorbed by the department.

Notes on Notes

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
