New Services or Benefit

Public Benefit:

Purpose: The purpose of the new program is to advise and consult Utah counties with applications for federal land transfers.

Services: PLPCO will spend up to 120 hours in FY 2020 working with the counties. These hours will be absorbed into our normal work that we conduct in advising counties on public land policy issues.

Expected Outcome: The expected outcomes of the new program is to educate counties on the availability of federal lands for disposal and consult with counties during their application process and facilitate the acquisition and/or lease.

Implementations and Resources: The bill will be implemented by our office staff.

How: The proposed activities will benefit the counties by providing up to date information on the availability of federal lands for disposal.

Performance Measures

Goal

Title: Advise and consult with Utah counties concerning the list of federal lands available for disposal within each county.

Description: This will be accomplished by contacting state and local BLM and Forest Service Offices to compile a list of available federal lands.

Collection Method: Performance information will be compiled by PLPCO staff.
