New Services or Benefit

Public Benefit:

---

**Purpose:** The purposes and duties of this new program are for the Department of Human Resource Management to develop a pilot program for and with coordination of the Department of Health to allow employees to bring infants to work up to 6 months of age.

**Services:** The bill will be a benefit to the Department of Health employees.

**Expected Outcome:** The expected outcome to the Department of Health is to assist the Department of Human Resource Management to develop this pilot, and to create Department policy and procedures.

**Implementations and Resources:** This bill will be implemented between coordination of the Department of Human Resource Management and the Department of Health.

**How:** The proposed activities will allow employees to bring their infant to work up to 6 months of age.

Performance Measures

---

Goal

**Title:** Development of Department of Health Policy and Procedures.

**Description:** The Department of Health will develop internal policies and procedures in accordance with the Department of Human Resource Management's implementation of this pilot program.

**Collection Method:** The policies and procedures will be drafted by the Division of Family Health and Preparedness, and be reviewed and approved by division management, department executive leadership, and the department operations committee.
