Enactment of this legislation would decrease revenues to the General Fund by \$1.0 million annually beginning in FY 2021, and increase dedicated credits revenues in the General Fund by \$1.0 million annually beginning in FY 2021 to be used solely for the Search and Rescue Financial Assistance Program.

Enactment of this legislation could cost the Department of Public Safety about \$600 one-time in FY 2021 from the General Fund to change forms, reports, and administrative rules. The department indicates that it can absorb the cost. Enactment would provide an additional \$1.0 million annually beginning in FY 2021 from dedicated credits for the Search and Rescue Financial Assistance Program, and the department could use that additional funding to reimburse local governments for search and rescue costs.

Notes on Notes

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
