**Purpose:** The Commercial Rental Assistance Program is designed to alleviate the impact of lost revenue for those who lease commercial properties.

**Services:** The program offers up to \$10,000 for assistance to qualified businesses to help offset rental expenses.

**Expected Outcome:** Those suffering from lost income will be allowed to seek other relief funding via loans, grants or other programs and continue leasing space for future business use. This will slow the stem of vacant commercial space in the State.

**Implementations and Resources:** GOED will oversee the program and create rules for oversight along with the application criteria and system management for reporting. This will be done in the Salesforce system already in place allowing for consistency and repeatability of the program.

**How:** By offering this grant to qualified businesses in the State there will be additional business activity that might not have otherwise occurred. Vacant space is a non-driver for the economy, thriving business will allow for a recovery to happen faster.
