**Purpose:** To re-determine eligibility for Medicaid within a limited time after the expiration of the Federal Public Health Emergency.

**Services:** Eligibility staff will need to do complete re-determinations on all the Medicaid cases we have kept open during the Public Health Emergency within a relatively short period of time.

**Expected Outcome:** Re-determination of Medicaid eligibility within a short period of time.

**Implementations and Resources:** After the Public Health Emergency ends, this bill requires DWS to re-determine all Medicaid cases within 120 days. Overtime will be needed.

**How:** Putting these cases through the existing eligibility determination process and allowing only eligible Medicaid cases to continue to receive Medicaid.

### Performance Measures

---

#### Goal

**Title:** Percentage of redeterminations by end of 120 days

**Description:** This measure will show the percentage of cases redetermined in that time frame.

**Collection Method:** These cases are tracked in the eligibility determination system (eREP). We will pull the results from eREP.
