

Performance Note
HB0392 - Safety Inspection
Amendments
 Sponsor: Rep. Weight, Elizabeth

Performance Note Report

Author: Joseph Brown
 Agency: Department of Public Safety

Funding For:

Serving a New or Larger Population

Public Benefit:

Purpose: To manage a safety inspection program that now requires most car and light trucks to get periodic safety inspections.

Services: UHP will manage the private vendors that do safety inspections and monitor and investigate consumer complaints.

Expected Outcome: The expected outcome is to have a program where every car needing a safety inspection has to have one in order to get registered or to renew a registration.

Implementations and Resources: The bill will be implemented by moving or hiring resources into the inspection program as needed to fulfill the requirements of this bill.

How: This bill will require most automobile owners to get a safety inspection as required before they are allowed to register or renew the registration for their vehicles.

Performance Measures

Goal

Title: Safety Inspection Program

Description: Provide needed assistance for private vendors so they can perform the required safety inspections.

Collection Method: Measured through data collected by Utah Interactive.
