**Local Government**

UCA 36-12-13(2)(c)

To the extent that counties and municipalities with a population over 10,000 do not already address riparian areas in their general plan by July 1, 2025, additional costs to develop and include a riparian element area in their general plan by December 31, 2024 could be incurred. As the size of local government areas and the extent they include riparian areas vary, enactment of this legislation could increase costs by \$15,000 on average to add a riparian element area to a general plan; aggregate amount unknown.

**Notes on Notes**

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
