Local Government

UCA 36-12-13(2)(c)

To the extent that counties and municipalities revise their land use regulations for critical infrastructure material operations and mining, enactment of this legislation could increase local government costs by \$1,000 for each revised land use regulation, which in aggregate could be an estimated \$150,000 one-time in FY 2025. Enactment of this legislation could also increase county costs in aggregate by \$2,500,000 one-time in FY 2024 and by \$7,500,000 one-time in FY 2025 for personnel, consultants, and legal expenses to perform necessary studies to produce required reports. To the extent that additional critical infrastructure material operations and miners begin operating because of changes to land use ordinances, enactment of this legislation could increase the service fee revenue, impact fee revenue, and costs for municipal utility service providers. This aggregate amount is unknown.

Individuals & Businesses

UCA 36-12-13(2)(c)

Enactment of this legislation likely will not result in direct expenditures from tax or fee changes for Utah residents and businesses

Regulatory Impact

UCA 36-12-13(2)(d)

Enactment of this legislation likely will not change the regulatory burden for Utah residents or businesses.

This bill does not create a new program or significantly expand an existing program.

Notes on Notes

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
