Local Government

UCA 36-12-13(2)(c)

Enactment of this legislation would allow first class cities in a first class county to impose a 0.5% sales tax with revenues to be used for specific purposes. Should all three qualifying cities impose this tax, it would generate approximately \$83 million annually if imposed at the full rate. If imposed only in Salt Lake City at the full rate it would generate approximately \$54 million annually.

Additionally, if a local government designates a project area as a public infrastructure district it would have the authority to levy a property tax. Aggregate amount is unknown.

Individuals & Businesses

UCA 36-12-13(2)(c)

Enactment of this legislation would allow certain cities to add an additional sales tax rate of up to 0.5%. Should all three qualifying cities impose this tax at the full rate it is estimated that taxpayers in those cities would pay additional sales tax of approximately \$83 million annually. If imposed only in Salt Lake City at the full rate then it is estimated that taxpayers in the city would pay additional sales tax of \$54 million annually.

Regulatory Impact

UCA 36-12-13(2)(d)

Enactment of this legislation likely will not change the regulatory burden for Utah residents or businesses.

Performance Evaluation

JR1-4-601

This bill does not create a new program or significantly expand an existing program.

Notes on Notes

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
