1) application fees

Description:

SB196 (1998 Legislature) Establishes procedures, requirements, and fees for licensure to operate a high level nuclear waste facility or a greater than class c radioactive waste facility in the state. Application and annual fees, and penalties, accounted for in this fund will be used by departments of state government to carry out duties related to nuclear waste facilities.

SB 81 (2001 GS) Modified the fees that go into this fund to be only the application fees for a high-level nuclear waste facility. DEQ must maintain separate subaccounts within the fund for each application, and once a license is granted to the applicant, Finance must transfer all fees remaining in the fund attributable to that license to the Nuclear Accident and Hazard Compensation Account (Fund 084). The bill also removed this fund's authority to earn interest.

SB 132 (2012 GS) Removes the scheduled repeal date for the Radiation Control Act. (#1084 and 1083)
