State of Utah
ORGANIZATION CHARTS
INTRODUCTION

State organization charts show the structure of Utah state government including the constitutionally provided legislative, executive, and judicial branches (see Article V, Sec. 1, Utah State Constitution). Within each department or institution, divisions, offices, boards, and commissions are shown to provide an organizational representation. These charts were prepared by the Office of Legislative Research and General Counsel from input obtained from the agencies shown.

The summary chart shows the broad organization of Utah state government and provides an index to department organization charts on the pages that follow.

As illustrated below, five shapes are used to show the different types of entities. A solid line indicates direct line authority. A dashed line shows that another relationship exists between the connected entities.
