Conclusion: On-going Evidence to Present of Continuing "Big Oil"/Mafia-allied COINTELPRO FBI Faction to Conduct Major Crimes

**The Major Senate Church Committee Hearings of 1976 — with comprehensive evidence and conclusions then possible on FBI COINTELPRO Operations — have provided the factual basis, then augmented by comprehensive evidence in 1999 Memphis Trial and verdict, to re-asses both the Martin Luther King Assassination and the 1993 take-over of Banner International by Utah Court Frauds, now irrefutably evidenced as instigated by FBI's Corrupt Utah COINTELPRO agents. With surfacing of fabricated FBI evidence from 1974, 1993 Court Frauds to be seen as successor COINTELPRO operation to 1974 COINTELPRO murder of Edelman instigated by John Paul Getty with its failed "framing" agenda.**

The Martin Luther King assassination, as now laid bare, provides the opportunity to witness one person, then the richest in the U.S., oil billionaire H.L. Hunt, and to be made aware of his degree of control of the FBI through J. Edgar Hoover, with whom he shared a direct dedicated red-phone telephone line from his Dallas office to J. Edgar Hoover's Washington D.C. FBI office. Hunt's daily instructions to Hoover were readily thus made, by simply picking up his private phone line to FBI central. The ability of H. L. Hunt to control and direct the FBI into criminal actions and non-actions is comprehensively evidenced with his role in planning the MLK assassination: e.g. he provided the Carlos Marcello Mafia team to coordinate, with mobster Frank Liberto in Memphis, the actual shooter in Memphis who fired the fatal shot on Martin Luther King. Review: <http://www.ratical.org/ratville/JFK/Unspeakable/MLKconExp.html>

As quoted from above link: “To whom in turn were those murderous [government] agencies responsible? Not so much to government officials *per se*, Pepper asserted, as to the economic power-holders they represented who stood in the even deeper shadows behind the FBI, Army Intelligence, and their affiliates in covert action. By 1968, Pepper told the jury, “And today it is much worse in my view” – “the decision-making processes in the United States were the representatives, the foot-soldiers of the very economic interests that were going to suffer as a result of these times of changes [being activated by King].”

**The coordinator of those economic interests for the MLK assassination must be concluded to have been H.L. Hunt (with J. Edgar Hoover effectively under his control, and for Hoover to get Hunt’s directives to him from that “oligarchy”) . The major “enforcers” for those economic interests may now be seen — now after the Church Committee Hearings of 1976, after the Memphis Trial, and now in context of the COINTELPRO operations in 1974 and then in 1993 involved in stealing the Requa/Hoover Files — and for those enforcers to be seen, jointly in collaboration, to be the FBI COINTELPRO faction (largely covert) and the major Mafia leadership. The right-wing “oligarchy” of economic interests was first represented by H.L. Hunt. John Paul Getty in 1974 is indicated to have become one of their leaders. He had the ability to contract — through the FBI’S COINTELPRO network of allied covert/corruptible FBI Agents with the Mafia-complicit among them — the murder of Samuel Edelman to be attributed to S.H. Requa.**

**The FBI fabrications and fictions applied in the background in 1974 to Requa surrounding that murder, and that then in part surfaced in the 1993 COINTELPRO-instigated Utah Court Frauds — and with various FBI-instigated dupes and *agents provocateurs* from then to the present— now combine with the 1999 Memphis evidence and verdict — *to complete the necessary picture for all the public (world-wide), and for all voters and elected officials in the U.S. to see and be appraised of.* This is necessary for the necessary global changes required to preserve civilization and to avert our fall into either a deep dark ages or into a complete apocalypse. The self-annihilating propensity in mankind since 1968 has become far more clear and far more real. The events included here for media coverage and for action provide perhaps the only means by which various combined disasters may be averted.**

**As the richest man then in the U.S., H.L. Hunt could (and did) exert simultaneous command within both the FBI and with the highest levels of the Mafia’s leadership:**

[http://dickatlee.com/issues/assassinations/king\\_assassination.html](http://dickatlee.com/issues/assassinations/king_assassination.html) His abilities with his vast wealth to organize and plan other such events to his beneficial and monetary interests is elsewhere noted.

Hunt’s likewise joint ability with Hoover over which FBI agents to place into key FBI must also now be recognized. To be noted from the above linked Summary of evidence and proceedings in the Memphis Trial, is include this excerpt about the jury and evidence: They learned of FBI reports that were patently false, and of others pointing in the right direction that had been suppressed -- e.g., witness statements of [James Earl] Ray leaving before the shooting.”

The same ability by another man of similar wealth as Hunt to control the FBI, to choose its agents, and direct FBI actions and those of their emplaced agents’ (as wholly criminalized FBI agents, and for similar personal beneficial interests), is to be seen from 1974 when oil billionaire John Paul Getty organized criminal FBI operations for a contract murder in efforts to frame Stephen Requa for that murder, with him as the person in co-control of the Requa/Hoover Files, and thereby to eliminate his control position of those files and make them accessible to John Paul Getty, who had been seeking that access as had denied by Stephen Requa.

Access to those files and data on countless gold mines. to be acquired and developed from them, was of inestimable value, with mines to be so developed having production capabilities into the billions of dollars each. FBI records falsifications and fabrications of evidence in their files from the 1974 period — concurrent with that murder — show the obvious intent of FBI agents at that time was to assist in the Edelman murder and the intended frame-up for the purpose of John Paul Getty through Getty Oil gaining access to and control of the Requa/Hoover Files. The murder transpired, but the frame-up proved impossible to accomplish.

The intended frame-up evidence with COINTELPRO profiling of its victim thus survived and in part surfaced, with the ability of Requa to presently ascertain and proclaim its apparent significance: as having been created by FBI agents' fabrications for no other purpose than for the intended frame-up in a murder for the beneficial interests of that oil billionaire.

That fabricated COINTELPRO profiling was then used by the COINTELPRO FBI agents in Utah to devise corrupted Utah Court proceedings, with duped/criminalized accomplices, to instigate the theft of the Requa/Hoover Files as was first sought by John Paul Getty.

**Recorded interviews of COINTELPRO corrupted persons in Utah events provide certain and irrefutable evidence of this having transpired, as to be noted in the following.**

**The former Banner International shareholders and investors in post-1993 Court Fraud mining efforts, also disrupted by COINTELPRO activities, are now being re-mobilized to claim immediate partial compensation from the FBI while an over-all settlement for the damages is arrived at.**

Documentary coverage of the events in the three major COINTELPRO operations as noted above, starting with the Memphis Court ruling in 1999, is being organized and is anticipated to be substantially profitable, most particularly with the international and world-wide audiences.

One proposal is to commence first production efforts contemplating the ultimate syndicated television broadcasts on a selection of documentary features based from this list entitled "Crimes of the FBI": <http://www.greatgoldgrab.com/comm.htm> Another proposal is for an investigative feature as those subjected to COINTELPRO manipulations are identified (from the many known) for successive interviews as the reality of these events from the MLK assassination and Utah Court Frauds become clear.

The Church Committee Hearings of 1976, themselves a possible feature, together with the Memphis Trial and verdict, and the unexpectedly large documentation available from many sources, will provide replete *research now already extant* on which the spectrum of opportunities may be prioritized for profitable productions. Following is select documentation and evidence related to the pending new Sequel to the book "The Great American Gold Grab". Coverage by Media Action Plus then follows that.
