Dear Pres. Obama/Citizens, this is our problem: WE ARE BREAKING OUR OWN RULES OF LAW.....Our Drug laws have created a self-fulfilling, unfair, slavery -based monopoly group with special powers, within our protected citizenship under all laws, **Constitutional - Democracy Rule of Law. Corporate Bribery and Elite Citizenship** Powers/Monopoly are serious violations of our highest Law under Constitutional Rule. Equality under all Laws between all citizen membership. NO CHEATING ALLOWED UNDER LAW.

By Elder Jonathan L. Peterson, servant of God and his rule of law for mankind. ..

## SURVEY FOR PUBLIC OFFICIALS & CITIZENS ABOUT BRIBERY. (Attorneys are officers of the court)

I am a public official under oath (<u>or may become one</u>) and must have an opinion about the use of money or promises to influence any public official in the discharge of his or her public or legal duties.

I agree that corporate political contributions are not lawful and violate state and federal bribery statutes because of "corporate mission laws" that protect share holders funds (from fraud/embezzlement); funds must be spent on profit, potential profit or humanitarian expenditures only. So intent cannot be freedom of speech but seeking influence for profit.

This message is to every officer of the court in Utah. That includes law-enforcement and all judicial branch members under oath of office. ......This document has sufficient evidence to warrant an official investigation into alleged bribery within our jurisdiction or responsibility to take official actions. The capital lies within Salt Lake County, which makes it our responsibility. Public announcement of criminal activity uncovered must be included in our actions. This is a crime against every weak or poor citizen member and must be ended now.

Subject: Something for the Utah Supreme Court to consider making an opinion on.

Date: Thu, 6 Mar 2014 19:05:53 + ....EDITED TO ADD SURVEY FOR PhD. EXPERTS ON THE MEANING OF THE WORD ..BEGINNING.)

## The question of abortion as a personal choice:

If a nationwide survey by scientists and doctors was given. Asking this question: In all life forms except human beings, when does that life form's life actually begin.:

At the absolute beginning, conception/first animation of living cells or at some other time later than the starting point for that life form.

Roe vs. Wade would be struck down as based on false beliefs.

ROE VS. WADE TOTALLY HINDGES ON A NON SCIENTIFIC BELIEF THAT IS NOT SUPPORTED BY THE FACTS ON HAND.

With that truth, (truth is knowledge of what is real) the rights of every newly constructed US citizen must be protected with constitutional DUE PROCESS OF LAW.

So if a medical emergency is happening the mother's life would have priority and if rape or incest occurs those mothers to be would have the courts so no citizen's life, liberty or property may be taken without due process.

This protects our most treasured constitutional protections:

EQUALITY UNDER ALL LAWS, this must be preserved for this law is the law from God to protect us from each other's wants or needs. Our Constitution for the Untied States of America came from God. God bless America.

by Elder Jonathan L. Peterson servant of our Lord Jesus

If any officer of the courts that has knowledge a felony type crime being committed: they are under constitutional oath to oppose, report and defend those who are offended by that crime or crimes and may not be silent in the face of injustice. Ethics in lawfully upholding constitutional oath of office.

"Is Instinct Mechanism An Artificial Intelligence Program?...

"Reasons for signing Petition". Kira R. a day ago ......It is a simple request for IBM Watson to be asked a very direct, straightforward question; it appears absurd for the request to not be granted in the furtherance of scientific investigation. It does not appear to be a valid reason that IBM Watson should not be asked the question and that IBM Watson's answer should not be publically available. The answer could advance a scientific understanding affecting areas of behavioral, philosophical, psychological, and political science—to name only a few.
