

## **A Peaceful Revolution Ending Unfair, Unjust Laws.**

Doing this one moral act against our instinct program, will free mankind with choice. To follow Satan/instinct's direction, or be moral creatures and DO WHAT IS RIGHT. Christian or atheist, do we follow our conscience or Obviously we have been operated by instinct mechanism to do nothing for the repair of unfair government practices/laws. When all we really have to do; is open our mouths and demonstrate logic of our true current reality... Unjust ..Right here in America, We dishonor our oath to God and Country to Now remain Silent...Bribery must be stopped this Day..Not some time in the near future.. Rationalization created by sub-conscience mechanism operating reality for your conscious mind.

Finally. Do we do this moral thing? To take action, to honor each other's rights, Our equality under all laws for a higher more logic driven society, knowing right from wrong. Respecting others rights. We are more than animals driven by Satan/instinct programs.???

Repair what is broken,,,,,,,,,,,,,,,,,Our equality is the only moral path to be on.....Nothing may defy this rule of constitutional law.....

Citizens are Equal Under All Laws And Practices....

**Hello again, SL Tribune staff.** Some of you must be aware the things I write are truthful.

Never been told-discussed in public or school settings.

These facts are available to everyone of you. But you needed me to tell you right from wrong.....We are wrong, but this can be fixed by honoring our constitutional law which rules all other laws below it. (a new post from a defender of our equality under all laws.)

"The whole group are lost in their self-deceptions. One subject, one problem that is never discussed. Our Broken Equality Under All Laws. You can't have Bribery and Slavery based drug laws in a Democracy. It can't be allowed to continue no matter how much we trust how things are working.

Driven like sheep to the slaughter, where we could correct our mistakes and be moral creatures.

Hi Mr. Schieffer (face the nation), some thoughts worth sharing. Whether you are Christian, Muslim, Atheist or whatever your beliefs support.

Equality under all laws are broken and must be restored to follow the civilized path and treat one another fairly. A message to our Public Officials and Citizens. Open your mouths.

.Only in Satan's eyes not in followers of Christ.

We are not teaching our children the true principles of democracy. Not at home or in schools. The single most important principle is Citizen Equality under all laws. That single rule protects freedom and liberty with justice for all. my brothers and sisters....Satan-instinct program blocks our choices and moral behaviors for the good of the group.....Only in Satan's eyes not in followers of Christ.

**We are blessed to see this gift from God shared. Only God could share this info about our directors of reality. Satan Programs.**

**Satan would never allow this to happen, willingly.**

**Satan is not in charge of heaven and earth, only the flesh.**
