Maybe the Utah Supreme Courts, Senate and House would support this use of state money to find the truth and share it?

Dear Greg Miller, (owner of the Utah Jazz)

I have worked over 3 years to prove our constitutional rights of equality are broken.

But the many public servants that now know of the proofs, which are based in logic and facts on hand, are unable to open their mouths and discuss or debates our current situation.

If BYU and U. of U. will show support for this public information forum, I won't need your help.

But if they resist the truth being shared with the public, only funding for this kind of media trial will get the knowledge that I have to share with mankind out.

I am a public servant and serve God at the same time. Our constitution demands equality under all laws for its citizen members. And we are not equal under all laws at this time.

Sincerely,

Jonathan L. Peterson

Dear BYU Law Dept. and University of Utah Law Dept.:

I propose a test of our judicial system with a mock trial or two.

These mock trials would be as important as The Scopes 'Monkey Trial' - July 10, 1925 - July 25, 1925.

Our whole nation would want to watch the truths unfold, grant funding would pile in once we the people understood what is at stake, our freedom from unlawful laws.

How about this idea: 2 mock trials, BYU vs. U. of U. law depts. using equality defense on a drug trial/equality prosecution on corp. bribery trial? Flip of a coin to see which university defends and who prosecutes. This after school special would help many future attorneys to understand how important our judicial system truly is.

It is democracy, without constitutional protections from our courts: people could get thrown in jail for personal choices and mass bribery could become accepted as lawful means of government.

If the information could be verified by US Army JAG attorneys then maybe our constitution will have someone to defend it. Besides me. I myself am under oath for life. Honorable discharge 1973.

I'm pretty sure this is going to scare them into depression, so let us citizens help them to honor their oath of office, DOJ Utah has a full criminal complaint against Gov. Herbert with evidence, out of state bribes, and grounds for prosecution. SLC-FBI said I was their brother for trying to get these crimes stopped. But DOJ Trina Higgins called me and said her office will not pursue and try some other agency.

Like anyone else is going to touch this either, my fellow citizen. Share the grounds for prosecution that every attorney in the US knows is true.....

(filed online Sunday March 2, 2014 at the US Supreme Court website)

Greetings United States Supreme Court:

If the honorable court will review the evidence that corporations under corporate mission laws, cannot use freedom of speech excuse because of share holders protections against fraud/embezzlement of their money. Funds must be spent on profit, potential profit or humanitarian expenditures only. So clear intent to use bribery for profit is easy to prove in a court of law. To take action will be very difficult because of the risks to our society's status quo operations, but since unlawful practices being forced to end will give voter equality a chance to operate our government, for the first time, the risk is well worth the effort. Our constitution is not in force at this time, only with equality under all laws will our democracy ensure continued existence. So you have no choice but to honor our code of conduct, the constitution, or truly risk the destruction of our nation by profit driven entities that have no moral code to rule their behaviors.

-----The DOJ has refused to do their job, they are a bunch of sheep/chickens. Army does not operate that way like civilians do.

Someone get this to the commander Lt. Gen. Flora D. Darpino. She needs this information so corrective action can be taken. Your office is full of citizens who are under oath as officers of the court.

So please review the evidence of our current situation and open your mouths.

Difficult as holding your breath for an hour, too bad you are under oath.

This was sent to a angry citizen that says Jack Kingston is a hypocrite. I keep my word, wish politicians did too, and promoted your facebook site. I don't want you to get shot at if other uses of power will serve our nation. my brother. I saw you called a politician a hypocrite. The problem is that every single one is. And most don't even know that fact for themselves.

I wrote this to a soldier that want fans to promote servicemen and women to have support from facebook members.

They are ponds controlled not by we the people but by we the corporations/wealthy with their unlawful bribery methods of influence. Share this little message to Jack Kingston and all the rest of our public officials including every attorney that is under oath being an officer of the court. my sister

"If you want to change the world? print the survey and go to the state bar association and demand they open their mouths. <https://www.facebook.com/WigginsUSA> (support our soldiers, they must obey orders, even if immoral but are constitutional)

I will my brother, check out what I wrote on Jack Kingston's facebook just now. He and every other sworn public official cannot legally keep their mouth shut. I hope our military personnel get a chance to review

what I have filed in their behalf. If one soldier's life is lost because of corporate influence on our government I demand justice for their families and the rest of us citizens.

"Candidate for US Senate Georgia, USA."

Dear Jack Kingston, what is your opinion on corporation's use of money and promises to receive special treatment from public offices. Knowing that corporate mission laws that protect share holders money from fraud/embezzlement operate those entities. Which clearly means because of profit rules of operation they are committing bribery with clear intent? This is new information because apparently those facts I just wrote are not in use by the members of our very large group of people, citizens and public officials of the Untied States of America.

If you address this unlawful corruption of our government, only good things will come of it. Stopping criminal behaviors will benefit every citizen not destroy our government by protecting our voter equality under all laws. Please say something, Utah and every other state and federal government worker needs this addressed TODAY.

I defend our constitution and so must you my brother and fellow citizen servant. (this was hand delivered and stamped by Utah 's public officials, and not one will comment, publicly.)

---this is the survey that will open your eyes, Attorneys under oath.

!!

Dear Governor Gary R. Herbert, Utah Senate, Utah House and Utah Attorney General Sean Reyes:

The question is simple and straight forward:

Is the act of giving or receiving gifts or promises with the intent to influence a public official unlawful?

Answer the 1 question survey and honor your oath of office. Please return survey to me?

If intent is provable beyond any reasonable doubt: then such practices must be prosecuted, bribery is a crime against our citizen membership.

Gross misconduct and ethics violations are the least of the charges that should and must be fully investigated/prosecuted by those having authority over such inexcusable behaviors as to accepting or supporting bribery. Bribery is unlawful. The law of bribery is an act against citizen voter equality. Equality of voter powers is the cornerstone of our democracy under a constitution.

We have been silent, those of us who are under constitutional oath of office. Never again can we allow our rules of conduct to be openly violated without voicing our objection in the most vigorous ways at our disposal. We are citizens of the United States of America and by law, constitutional law, must defend each other's rights to the fullest extent available, within the laws we swore to uphold.

Sincerely,

Jonathan L. Peterson

I am a public official under oath and must have an opinion about the use of money or promises to influence any public official in the discharge of his or her public or legal duties.

I agree that corporate political contributions are not lawful and violate state and federal bribery statutes because of "corporate mission laws" that protect share holders funds; funds must be spent on profit, potential profit or humanitarian expenditures only. So intent cannot be freedom of speech but seeking influence for profit.

Good morning Utah public servants. Praying for the truth to be shared...

Satan/Instinct blinds us to the horrific suffering & misery caused by unconstitutional laws. Bribery and drug laws are so terrible in their destructive force.

We just can't see that part of the truth about reality we share together.

This should be on the front page every newspaper in the country.

Hypocrites if the 80,000 murdered Mexicans were white Canadians the war on drugs would be over long ago. Just like when 500 alcohol drug murders, in Detroit alone was the front page news and soon after prohibition ended in the United States 1933.

Ric you need to share this Truth of our reality.

It would appear we could care less about our neighbors to the south and the suffering we cause millions to bear.

your brother Jonathan.

I serve God my brother with truth human beings need.

2 million oxi-codone prescriptions written in one 12 month period in NY City alone, for \$3-\$13 per pill. If you have permission you are a good person. If you don't you are evil and a criminal. That logic is so stupid only sheep could defend its use by law. Information from National Geographic "Drugs Inc. New York City". Here is a good one.

Why would I have to go back to a doctor for the same prescription month after month year after year?

Because I have to by law.

It's great being a slave master isn't it? And not even have to feed them.
