

17-23-13 Setting monuments.

- (1)
 - (a) When establishing a section, quarter-section, or center corners, the county surveyor or his designee shall set a monument of durable quality.
 - (b) Wherever the nature of the ground will not allow the setting of a monument at the exact corner as described, then a witness monument shall be set.
- (2)
 - (a) Whenever possible, section corners and quarter-section corners shall be witnessed by at least four references of durable quality.
 - (b) All references shall be carefully described, and their bearings and distances noted in the report.

Enacted by Chapter 29, 1987 General Session
