

**19-6-605 Disposal by battery wholesaler.**

- (1) A person selling lead acid batteries at wholesale may not dispose of a used lead acid battery except by delivery to:
  - (a) a battery manufacturer for delivery to a secondary lead smelter that meets the state and federal permit requirements;
  - (b) a collection or recycling facility; or
  - (c) a secondary lead smelter that meets the state and federal permit requirements.
- (2) The wholesale lead acid battery distributor shall ensure removal of batteries received under Section 19-6-602 or 19-6-604 from the wholesale collection point.
