(b) may limit coverage for the purchase, repair, or replacement of a microprocessor component for a prosthetic device to $30,000, per limb, every three years.

(4) If the coverage described in this section is provided through a managed care plan, offered under Chapter 45, Managed Care Organizations, the insured shall have access to medically necessary prosthetic clinical care, and to prosthetic devices and technology, from one or more prosthetic providers in the managed care plan's provider network.
