

4-4-3 Definitions.

As used in this chapter:

- (1) "Addled" or "white rot" means putrid or rotten.
- (2) "Adherent yolk" means the yolk has settled to one side and become fastened to the shell.
- (3) "Black rot" means the egg has deteriorated to such an extent that the whole interior presents a blackened appearance.
- (4) "Black spot" means mould or bacteria have developed in isolated areas inside the shell.
- (5) "Blood ring" means bacteria have developed to such an extent that blood is formed.
- (6) "Candling" means the act of determining the condition of an egg by holding it before a strong light in such a way that it shines through the egg and reveals its contents.
- (7) "Mouldy" means mould spores have formed within the shell.
