(b) conduct the examinations at the home of the proposed patient, at a hospital or other medical facility, or at any other suitable place that is not likely to have a harmful effect on the proposed patient’s health;

(c) inform the proposed patient, if not represented by an attorney:
   (i) that the proposed patient does not have to say anything;
   (ii) of the nature and reasons for the examination;
   (iii) that the examination was ordered by the court;
   (iv) that any information volunteered could form part of the basis for the proposed patient to be ordered to receive assisted outpatient treatment; and
   (v) that findings resulting from the examination will be made available to the court; and

(d) within 24 hours of examining the proposed patient, report to the court, orally or in writing, whether the proposed patient is mentally ill. If the designated examiner reports orally, the designated examiner shall immediately send a written report to the clerk of the court.

(9) If a designated examiner is unable to complete an examination on the first attempt because the proposed patient refuses to submit to the examination, the court shall fix a reasonable compensation to be paid to the examiner.

(10) If the local mental health authority, its designee, or a medical examiner determines before the court hearing that the conditions justifying the findings leading to an assisted outpatient treatment hearing no longer exist, the local mental health authority, its designee, or the medical examiner shall immediately report that determination to the court.

(11) The court may terminate the proceedings and dismiss the application at any time, including prior to the hearing, if the designated examiners or the local mental health authority or its designee informs the court that the proposed patient is not mentally ill.

(12) Before the hearing, an opportunity to be represented by counsel shall be afforded to the proposed patient, and if neither the proposed patient nor others provide counsel, the court shall appoint counsel and allow counsel sufficient time to consult with the proposed patient before the hearing. In the case of an indigent proposed patient, the payment of reasonable attorney fees for counsel, as determined by the court, shall be made by the county in which the proposed patient resides or is found.

(13)
   (a) All persons to whom notice is required to be given shall be afforded an opportunity to appear at the hearing, to testify, and to present and cross-examine witnesses. The court may, in its discretion, receive the testimony of any other individual. The court may allow a waiver of the proposed patient's right to appear only for good cause shown, and that cause shall be made a matter of court record.

   (b) The court is authorized to exclude all individuals not necessary for the conduct of the proceedings and may, upon motion of counsel, require the testimony of each examiner to be given out of the presence of any other examiners.

   (c) The hearing shall be conducted in as informal a manner as may be consistent with orderly procedure, and in a physical setting that is not likely to have a harmful effect on the mental health of the proposed patient.

   (d) The court shall consider all relevant historical and material information that is offered, subject to the rules of evidence, including reliable hearsay under Rule 1102, Utah Rules of Evidence.

   (e)
      (i) A local mental health authority or its designee, or the physician in charge of the proposed patient's care shall, at the time of the hearing, provide the court with the following information:
         (A) the detention order, if any;
(B) admission notes, if any;
(C) the diagnosis, if any;
(D) doctor's orders, if any;
(E) progress notes, if any;
(F) nursing notes, if any; and
(G) medication records, if any.

(ii) The information described in Subsection (13)(e)(i) shall also be provided to the proposed
patient's counsel:
(A) at the time of the hearing; and
(B) at any time prior to the hearing, upon request.

(14) The court shall order a proposed patient to assisted outpatient treatment if, upon completion
of the hearing and consideration of the information presented, the court finds by clear and
convincing evidence that:
(a) the proposed patient has a mental illness;
(b) there is no appropriate less-restrictive alternative to a court order for assisted outpatient
treatment; and

c
(i) the proposed patient lacks the ability to engage in a rational decision-making process
regarding the acceptance of mental health treatment, as demonstrated by evidence of
inability to weigh the possible risks of accepting or rejecting treatment; or
(ii) the proposed patient needs assisted outpatient treatment in order to prevent relapse or
deterioration that is likely to result in the proposed patient posing a substantial danger to self
or others.

(15) The court may order the applicant or a close relative of the patient to be the patient's personal
representative, as described in 45 C.F.R. Sec. 164.502(g), for purposes of the patient's mental
health treatment.

(16) In the absence of the findings described in Subsection (14), the court, after the hearing, shall
dismiss the proceedings.

(17)
(a) The assisted outpatient treatment order shall designate the period for which the patient shall
be treated, which may not exceed six months without a review hearing.
(b) An individual identified under Subsection (4) may request a review hearing at any time while
the assisted outpatient treatment order is in effect.
(c) At a review hearing, the court may extend the duration of an assisted outpatient treatment
order by up to six months, if:
(i) the court finds by clear and convincing evidence that the patient meets the conditions
described in Subsection (14); or
(ii)
(A) the patient does not appear at the review hearing; and
(B) notice of the review hearing was provided to the patient's last known address by the
applicant described in Subsection (1) or by a local mental health authority.
(d) The court shall maintain a current list of all patients under its order of assisted outpatient
treatment.
(e) At least two weeks prior to the expiration of the designated period of any assisted outpatient
treatment order still in effect, the court that entered the original order shall inform the
appropriate local mental health authority or its designee.

(18) Costs of all proceedings under this section shall be paid by the county in which the proposed
patient resides or is found.
(19) A court may not hold an individual in contempt for failure to comply with an assisted outpatient treatment order.

(20) As provided in Section 31A-22-651, a health insurance provider may not deny an insured the benefits of the insured's policy solely because the health care that the insured receives is provided under a court order for assisted outpatient treatment.

Enacted by Chapter 256, 2019 General Session

(1) A responsible individual who has credible knowledge of an adult's mental illness and the condition or circumstances that have led to the adult's need to be involuntarily committed may initiate an involuntary commitment court proceeding by filing, in the district court in the county where the proposed patient resides or is found, a written application that includes:

(a) unless the court finds that the information is not reasonably available, the proposed patient's:
   (i) name;
   (ii) date of birth; and
   (iii) social security number;

(b) a certificate of a licensed physician or a designated examiner stating that within the seven-day period immediately preceding the certification, the physician or designated examiner examined the proposed patient and is of the opinion that the proposed patient has a mental illness and should be involuntarily committed; or

(ii) a written statement by the applicant that:
   (A) the proposed patient has been requested to, but has refused to, submit to an examination of mental condition by a licensed physician or designated examiner;
   (B) is sworn to under oath; and
   (C) states the facts upon which the application is based; and

(c) a statement whether the proposed patient has previously been under an assisted outpatient treatment order, if known by the applicant.

(2) (a) Subject to Subsection (2)(b), before issuing a judicial order, the court may require the applicant to consult with the appropriate local mental health authority, and the court may direct a mental health professional from that local mental health authority to interview the applicant and the proposed patient to determine the existing facts and report them to the court.

(b) The consultation described in Subsection (2)(a):
   (i) may take place at or before the hearing; and
   (ii) is required if the local mental health authority appears at the hearing.

(3) If the court finds from the application, from any other statements under oath, or from any reports from a mental health professional that there is a reasonable basis to believe that the proposed patient has a mental illness that poses a substantial danger to self or others requiring involuntary commitment pending examination and hearing; or, if the proposed patient has refused to submit to an interview with a mental health professional as directed by the court or to go to a treatment facility voluntarily, the court may issue an order, directed to a mental health officer or peace officer, to immediately place the proposed patient in the custody of a local mental health authority or in a temporary emergency facility as provided in Section 62A-15-634 to be detained for the purpose of examination.
Notice of commencement of proceedings for involuntary commitment, setting forth the allegations of the application and any reported facts, together with a copy of any official order of detention, shall be provided by the court to a proposed patient before, or upon, placement in the custody of a local mental health authority or, with respect to any proposed patient presently in the custody of a local mental health authority whose status is being changed from voluntary to involuntary, upon the filing of an application for that purpose with the court. A copy of that order of detention shall be maintained at the place of detention.

Notice of commencement of those proceedings shall be provided by the court as soon as practicable to the applicant, any legal guardian, any immediate adult family members, legal counsel for the parties involved, the local mental health authority or its designee, and any other persons whom the proposed patient or the court shall designate. That notice shall advise those persons that a hearing may be held within the time provided by law. If the proposed patient has refused to permit release of information necessary for provisions of notice under this subsection, the extent of notice shall be determined by the court.

Proceedings for commitment of an individual under the age of 18 years to a local mental health authority may be commenced in accordance with Part 7, Commitment of Persons Under Age 18 to Division of Substance Abuse and Mental Health.

The district court may, in its discretion, transfer the case to any other district court within this state, provided that the transfer will not be adverse to the interest of the proposed patient.

Within 24 hours, excluding Saturdays, Sundays, and legal holidays, of the issuance of a judicial order, or after commitment of a proposed patient to a local mental health authority or its designee under court order for detention or examination, the court shall appoint two designated examiners:

- who did not sign the civil commitment application nor the civil commitment certification under Subsection (1);
- one of whom is a licensed physician; and
- one of whom may be designated by the proposed patient or the proposed patient's counsel, if that designated examiner is reasonably available.

The court shall schedule a hearing to be held within 10 calendar days of the day on which the designated examiners are appointed.

The designated examiners shall:

- conduct their examinations separately;
- conduct the examinations at the home of the proposed patient, at a hospital or other medical facility, or at any other suitable place that is not likely to have a harmful effect on the proposed patient's health;
- inform the proposed patient, if not represented by an attorney:
  - that the proposed patient does not have to say anything;
  - of the nature and reasons for the examination;
  - that the examination was ordered by the court;
  - that any information volunteered could form part of the basis for the proposed patient's involuntary commitment;
  - that findings resulting from the examination will be made available to the court; and
  - that the designated examiner may, under court order, obtain the proposed patient's mental health records; and
- within 24 hours of examining the proposed patient, report to the court, orally or in writing, whether the proposed patient is mentally ill, has agreed to voluntary commitment, as described in Section 62A-15-625, or has acceptable programs available to the proposed
patient without court proceedings. If the designated examiner reports orally, the designated examiner shall immediately send a written report to the clerk of the court.

(11) If a designated examiner is unable to complete an examination on the first attempt because the proposed patient refuses to submit to the examination, the court shall fix a reasonable compensation to be paid to the examiner.

(12) If the local mental health authority, its designee, or a medical examiner determines before the court hearing that the conditions justifying the findings leading to a commitment hearing no longer exist, the local mental health authority, its designee, or the medical examiner shall immediately report that determination to the court.

(13) The court may terminate the proceedings and dismiss the application at any time, including prior to the hearing, if the designated examiners or the local mental health authority or its designee informs the court that the proposed patient:

(a) is not mentally ill;
(b) has agreed to voluntary commitment, as described in Section 62A-15-625; or
(c) has acceptable options for treatment programs that are available without court proceedings.

(14) Before the hearing, an opportunity to be represented by counsel shall be afforded to the proposed patient, and if neither the proposed patient nor others provide counsel, the court shall appoint counsel and allow counsel sufficient time to consult with the proposed patient before the hearing. In the case of an indigent proposed patient, the payment of reasonable attorney fees for counsel, as determined by the court, shall be made by the county in which the proposed patient resides or is found.

(15)
(a) The proposed patient, the applicant, and all other persons to whom notice is required to be given shall be afforded an opportunity to appear at the hearing, to testify, and to present and cross-examine witnesses. The court may, in its discretion, receive the testimony of any other person. The court may allow a waiver of the proposed patient’s right to appear only for good cause shown, and that cause shall be made a matter of court record.
(b) The court is authorized to exclude all persons not necessary for the conduct of the proceedings and may, upon motion of counsel, require the testimony of each examiner to be given out of the presence of any other examiners.
(c) The hearing shall be conducted in as informal a manner as may be consistent with orderly procedure, and in a physical setting that is not likely to have a harmful effect on the mental health of the proposed patient.
(d) The court shall consider all relevant historical and material information that is offered, subject to the rules of evidence, including reliable hearsay under Rule 1102, Utah Rules of Evidence.
(e) A local mental health authority or its designee or the physician in charge of the proposed patient's care shall, at the time of the hearing, provide the court with the following information:
(A) the detention order;
(B) admission notes;
(C) the diagnosis;
(D) any doctors’ orders;
(E) progress notes;
(F) nursing notes;
(G) medication records pertaining to the current commitment; and
(H) whether the proposed patient has previously been civilly committed or under an order for assisted outpatient treatment.
(ii) That information shall also be supplied to the proposed patient's counsel at the time of the hearing, and at any time prior to the hearing upon request.

(16) The court shall order commitment of a proposed patient who is 18 years of age or older to a local mental health authority if, upon completion of the hearing and consideration of the information presented, the court finds by clear and convincing evidence that:
(a) the proposed patient has a mental illness;
(b) because of the proposed patient's mental illness the proposed patient poses a substantial danger to self or others;
(c) the proposed patient lacks the ability to engage in a rational decision-making process regarding the acceptance of mental treatment as demonstrated by evidence of inability to weigh the possible risks of accepting or rejecting treatment;
(d) there is no appropriate less-restrictive alternative to a court order of commitment; and
(e) the local mental health authority can provide the proposed patient with treatment that is adequate and appropriate to the proposed patient's conditions and needs. In the absence of the required findings of the court after the hearing, the court shall dismiss the proceedings.

(17)
(a) The order of commitment shall designate the period for which the patient shall be treated. When the patient is not under an order of commitment at the time of the hearing, that period may not exceed six months without benefit of a review hearing. Upon such a review hearing, to be commenced prior to the expiration of the previous order, an order for commitment may be for an indeterminate period, if the court finds by clear and convincing evidence that the required conditions in Subsection (16) will last for an indeterminate period.
(b) The court shall maintain a current list of all patients under its order of commitment. That list shall be reviewed to determine those patients who have been under an order of commitment for the designated period. At least two weeks prior to the expiration of the designated period of any order of commitment still in effect, the court that entered the original order shall inform the appropriate local mental health authority or its designee. The local mental health authority or its designee shall immediately reexamine the reasons upon which the order of commitment was based. If the local mental health authority or its designee determines that the conditions justifying that commitment no longer exist, it shall discharge the patient from involuntary commitment and immediately report the discharge to the court. Otherwise, the court shall immediately appoint two designated examiners and proceed under Subsections (8) through (14).
(c) The local mental health authority or its designee responsible for the care of a patient under an order of commitment for an indeterminate period shall, at six-month intervals, reexamine the reasons upon which the order of indeterminate commitment was based. If the local mental health authority or its designee determines that the conditions justifying that commitment no longer exist, that local mental health authority or its designee shall discharge the patient from its custody and immediately report the discharge to the court. If the local mental health authority or its designee determines that the conditions justifying that commitment continue to exist, the local mental health authority or its designee shall send a written report of those findings to the court. The patient and the patient's counsel of record shall be notified in writing that the involuntary commitment will be continued, the reasons for that decision, and that the patient has the right to a review hearing by making a request to the court. Upon receiving the request, the court shall immediately appoint two designated examiners and proceed under Subsections (8) through (14).

(18) Any patient committed as a result of an original hearing or a patient's legally designated representative who is aggrieved by the findings, conclusions, and order of the court entered in
the original hearing has the right to a new hearing upon a petition filed with the court within 30
days of the entry of the court order. The petition must allege error or mistake in the findings, in
which case the court shall appoint three impartial designated examiners previously unrelated to
the case to conduct an additional examination of the patient. The new hearing shall, in all other
respects, be conducted in the manner otherwise permitted.

(19) Costs of all proceedings under this section shall be paid by the county in which the proposed
patient resides or is found.

shall be considered to continue to exist.

(1) After an individual is involuntarily committed to the custody of a local mental health authority
under Subsection 62A-15-631(16), the conditions justifying commitment under that subsection
shall be considered to continue to exist, for purposes of continued treatment under Subsection
62A-15-631(17) or conditional release under Section 62A-15-637, unless:

if the patient:
(a) is under a conditional release agreement; and
(b) does not appear at the review hearing.

(2) When admitted to any facility or institution operated by a United States agency, within or

Pending commitment to a local mental health authority, a patient taken into custody or ordered to be committed pursuant to this part may be detained in the patient's home, a licensed foster home, or any other suitable facility under reasonable conditions prescribed by the local mental health authority. Except in an extreme emergency, the patient may not be detained in a nonmedical facility used for the detention of individuals charged with or convicted of criminal offenses. The local mental health authority shall take reasonable measures, including provision of medical care, as may be necessary to assure proper care of an individual temporarily detained pursuant to this section.

Whenever a patient has been temporarily, involuntarily committed to a local mental health authority under Section 62A-15-629 on the application of an individual other than the patient's legal guardian, spouse, or next of kin, the local mental health authority or a designee of the local mental health authority shall immediately notify the patient's legal guardian, spouse, or next of kin, if known.

Each local mental health authority or its designee shall, as frequently as practicable, examine or cause to be examined every person who has been committed to it. Whenever the local mental health authority or its designee determines that the conditions justifying involuntary commitment no longer exist, it shall discharge the patient. If the patient has been committed through judicial proceedings, a report describing that determination shall be sent to the clerk of the court where the proceedings were held.

(1) A local mental health authority or a designee of a local mental health authority may conditionally release an improved patient to less restrictive treatment when:
   (a) the authority specifies the less restrictive treatment; and
   (b) the patient agrees in writing to the less restrictive treatment.

(2) (a) Whenever a local mental health authority or a designee of a local mental health authority determines that the conditions justifying commitment no longer exist, the local mental health authority or the designee shall discharge the patient.
   (b) If the discharged patient has been committed through judicial proceedings, the local mental health authority or the designee shall prepare a report describing the determination and shall send the report to the clerk of the court where the proceedings were held.
(3) A local mental health authority or a designee of a local mental health authority is authorized to issue an order for the immediate placement of a current patient into a more restrictive environment, if:

(i) the local mental health authority or a designee of a local mental health authority has reason to believe that the patient's current environment is aggravating the patient's mental illness; or

(ii) the patient has failed to comply with the specified treatment plan to which the patient agreed in writing.

(b) An order for a more restrictive environment shall:

(i) state the reasons for the order;

(ii) authorize any peace officer to take the patient into physical custody and transport the patient to a facility designated by the local mental health authority;

(iii) inform the patient of the right to a hearing, the right to appointed counsel, and the other procedures described in Subsection 62A-15-631(14); and

(iv) prior to or upon admission to the more restrictive environment, or upon imposition of additional or different requirements as conditions for continued conditional release from inpatient care, copies of the order shall be delivered to:

(A) the patient;

(B) the person in whose care the patient is placed;

(C) the patient's counsel of record; and

(D) the court that entered the original order of commitment.

(c) If the patient was in a less restrictive environment for more than 30 days and is aggrieved by the change to a more restrictive environment, the patient or the patient's representative may request a hearing within 30 days of the change. Upon receiving the request, the court shall immediately appoint two designated examiners and proceed pursuant to Section 62A-15-631, with the exception of Subsection 62A-15-631(16), unless, by the time set for the hearing, the patient is returned to the less restrictive environment or the patient withdraws the request for a hearing, in writing.

(d) The court shall:

(i) make findings regarding whether the conditions described in Subsections (3)(a) and (b) were met and whether the patient is in the least restrictive environment that is appropriate for the patient's needs; and

(ii) designate, by order, the environment for the patient's care and the period for which the patient shall be treated, which may not extend beyond expiration of the original order of commitment.

(4) Nothing contained in this section prevents a local mental health authority or its designee, pursuant to Section 62A-15-636, from discharging a patient from commitment or from placing a patient in an environment that is less restrictive than that ordered by the court.

Amended by Chapter 419, 2019 General Session

(1) Any patient committed pursuant to Section 62A-15-631 is entitled to a reexamination of the order for commitment on the patient's own petition, or on that of the legal guardian, parent, spouse, relative, or friend, to the district court of the county in which the patient resides or is detained.
(2) Upon receipt of the petition, the court shall conduct or cause to be conducted by a mental health commissioner proceedings in accordance with Section 62A-15-631, except that those proceedings shall not be required to be conducted if the petition is filed sooner than six months after the issuance of the order of commitment or the filing of a previous petition under this section, provided that the court may hold a hearing within a shorter period of time if good cause appears. The costs of proceedings for such judicial determination shall be paid by the county in which the patient resided or was found prior to commitment, upon certification, by the clerk of the district court in the county where the proceedings are held, to the county legislative body that those proceedings were held and the costs incurred.

(3) "Legal custody" means:
   (a) the right to determine where and with whom the child shall live;
   (b) the right to participate in all treatment decisions and to consent or withhold consent for treatment in which a constitutionally protected liberty or privacy interest may be affected, including antipsychotic medication, electroshock therapy, and psychosurgery; and

Amended by Chapter 195, 2003 General Session

62A-15-702 Treatment and commitment of minors in the public mental health system.
A child is entitled to due process proceedings, in accordance with the requirements of this part, whenever the child:

(1) may receive or receives services through the public mental health system and is placed, by a local mental health authority, in a physical setting where his liberty interests are restricted, including residential and inpatient placements; or

(2) receives treatment in which a constitutionally protected privacy or liberty interest may be affected, including the administration of antipsychotic medication, electroshock therapy, and psychosurgery.

Renumbered and Amended by Chapter 8, 2002 Special Session 5
Renumbered and Amended by Chapter 8, 2002 Special Session 5

(1) A child may receive services from a local mental health authority in an inpatient or residential setting only after a commitment proceeding, for the purpose of transferring physical custody, has been conducted in accordance with the requirements of this section.

(2) That commitment proceeding shall be initiated by a petition for commitment, and shall be a careful, diagnostic inquiry, conducted by a neutral and detached fact finder, pursuant to the procedures and requirements of this section. If the findings described in Subsection (4) exist, the proceeding shall result in the transfer of physical custody to the appropriate local mental health authority, and the child may be placed in an inpatient or residential setting.

(3) The neutral and detached fact finder who conducts the inquiry:
(a) shall be a designated examiner, as defined in Section 62A-15-602; and
(b) may not profit, financially or otherwise, from the commitment or physical placement of the
cild in that setting.

(4) Upon determination by a fact finder that the following circumstances clearly exist, the fact finder
may order that the child be committed to the physical custody of a local mental health authority:
(a) the child has a mental illness, as defined in Section 62A-15-602;
(b) the child demonstrates a reasonable fear of the risk of substantial danger to self or others;
(c) the child will benefit from care and treatment by the local mental health authority; and
(d) there is no appropriate less-restrictive alternative.

(5)
(a) The commitment proceeding before the neutral and detached fact finder shall be conducted
in an informal manner as possible and in a physical setting that is not likely to have a harmful
effect on the child.
(b) The child, the child's parent or legal guardian, the petitioner, and a representative of the
appropriate local mental health authority:
   (i) shall receive informal notice of the date and time of the proceeding; and
   (ii) may appear and address the petition for commitment.
(c) The neutral and detached fact finder may, in the fact finder's discretion, receive the testimony
of any other person.
(d) The fact finder may allow a child to waive the child's right to be present at the commitment
proceeding, for good cause shown. If that right is waived, the purpose of the waiver shall be
made a matter of record at the proceeding.
(e) At the time of the commitment proceeding, the appropriate local mental health authority,
   its designee, or the psychiatrist who has been in charge of the child's care prior to the
   commitment proceeding, shall provide the neutral and detached fact finder with the following
   information, as it relates to the period of current admission:
   (i) the petition for commitment;
   (ii) the admission notes;
   (iii) the child's diagnosis;
   (iv) physicians' orders;
   (v) progress notes;
   (vi) nursing notes; and
   (vii) medication records.
(f) The information described in Subsection (5)(e) shall also be provided to the child's parent or
   legal guardian upon written request.

(g)
(i) The neutral and detached fact finder's decision of commitment shall state the duration of the
   commitment. Any commitment to the physical custody of a local mental health authority
   may not exceed 180 days. Prior to expiration of the commitment, and if further commitment
   is sought, a hearing shall be conducted in the same manner as the initial commitment
   proceeding, in accordance with the requirements of this section.
(ii) At the conclusion of the hearing and subsequently in writing, when a decision for
    commitment is made, the neutral and detached fact finder shall inform the child and the
    child's parent or legal guardian of that decision and of the reasons for ordering commitment.
(iii) The neutral and detached fact finder shall state in writing the basis of the decision, with
    specific reference to each of the criteria described in Subsection (4), as a matter of record.

(6) A child may be temporarily committed for a maximum of 72 hours, excluding Saturdays,
Sundays, and legal holidays, to the physical custody of a local mental health authority in
accordance with the procedures described in Section 62A-15-629 and upon satisfaction of the risk factors described in Subsection (4). A child who is temporarily committed shall be released at the expiration of the 72 hours unless the procedures and findings required by this section for the commitment of a child are satisfied.

(7) A local mental health authority shall have physical custody of each child committed to it under this section. The parent or legal guardian of a child committed to the physical custody of a local mental health authority under this section, retains legal custody of the child, unless legal custody has been otherwise modified by a court of competent jurisdiction. In cases when the Division of Child and Family Services or the Division of Juvenile Justice Services has legal custody of a child, that division shall retain legal custody for purposes of this part.

(8) The cost of caring for and maintaining a child in the physical custody of a local mental health authority shall be assessed to and paid by the child's parents, according to their ability to pay. For purposes of this section, the Division of Child and Family Services or the Division of Juvenile Justice Services shall be financially responsible, in addition to the child's parents, if the child is in the legal custody of either of those divisions at the time the child is committed to the physical custody of a local mental health authority under this section, unless Medicaid regulation or contract provisions specify otherwise. The Office of Recovery Services shall assist those divisions in collecting the costs assessed pursuant to this section.

(9) Whenever application is made for commitment of a minor to a local mental health authority under any provision of this section by a person other than the child's parent or guardian, the local mental health authority or its designee shall notify the child's parent or guardian. The parents shall be provided sufficient time to prepare and appear at any scheduled proceeding.

(10)

(a) Each child committed pursuant to this section is entitled to an appeal within 30 days after any order for commitment. The appeal may be brought on the child's own petition or on petition of the child's parent or legal guardian, to the juvenile court in the district where the child resides or is currently physically located. With regard to a child in the custody of the Division of Child and Family Services or the Division of Juvenile Justice Services, the attorney general's office shall handle the appeal, otherwise the appropriate county attorney's office is responsible for appeals brought pursuant to this Subsection (10)(a).

(b) Upon receipt of the petition for appeal, the court shall appoint a designated examiner previously unrelated to the case, to conduct an examination of the child in accordance with the criteria described in Subsection (4), and file a written report with the court. The court shall then conduct an appeal hearing to determine whether the findings described in Subsection (4) exist by clear and convincing evidence.

(c) Prior to the time of the appeal hearing, the appropriate local mental health authority, its designee, or the mental health professional who has been in charge of the child's care prior to commitment, shall provide the court and the designated examiner for the appeal hearing with the following information, as it relates to the period of current admission:

(i) the original petition for commitment;
(ii) admission notes;
(iii) diagnosis;
(iv) physicians' orders;
(v) progress notes;
(vi) nursing notes; and
(vii) medication records.
(d) Both the neutral and detached fact finder and the designated examiner appointed for the appeal hearing shall be provided with an opportunity to review the most current information described in Subsection (10)(c) prior to the appeal hearing.

(e) The child, the child's parent or legal guardian, the person who submitted the original petition for commitment, and a representative of the appropriate local mental health authority shall be notified by the court of the date and time of the appeal hearing. Those persons shall be afforded an opportunity to appear at the hearing. In reaching its decision, the court shall review the record and findings of the neutral and detached fact finder, the report of the designated examiner appointed pursuant to Subsection (10)(b), and may, in its discretion, allow or require the testimony of the neutral and detached fact finder, the designated examiner, the child, the child's parent or legal guardian, the person who brought the initial petition for commitment, or any other person whose testimony the court deems relevant. The court may allow the child to waive the right to appear at the appeal hearing, for good cause shown. If that waiver is granted, the purpose shall be made a part of the court's record.

(11) Each local mental health authority has an affirmative duty to conduct periodic evaluations of the mental health and treatment progress of every child committed to its physical custody under this section, and to release any child who has sufficiently improved so that the criteria justifying commitment no longer exist.

(12) (a) A local mental health authority or its designee, in conjunction with the child's current treating mental health professional may release an improved child to a less restrictive environment, as they determine appropriate. Whenever the local mental health authority or its designee, and the child's current treating mental health professional, determine that the conditions justifying commitment no longer exist, the child shall be discharged and released to the child's parent or legal guardian. With regard to a child who is in the physical custody of the State Hospital, the treating psychiatrist or clinical director of the State Hospital shall be the child's current treating mental health professional.

(b) A local mental health authority or its designee, in conjunction with the child's current treating mental health professional, is authorized to issue a written order for the immediate placement of a child not previously released from an order of commitment into a more restrictive environment, if the local authority or its designee and the child's current treating mental health professional has reason to believe that the less restrictive environment in which the child has been placed is exacerbating the child's mental illness, or increasing the risk of harm to self or others.

(c) The written order described in Subsection (12)(b) shall include the reasons for placement in a more restrictive environment and shall authorize any peace officer to take the child into physical custody and transport the child to a facility designated by the appropriate local mental health authority in conjunction with the child's current treating mental health professional. Prior to admission to the more restrictive environment, copies of the order shall be personally delivered to the child, the child's parent or legal guardian, the administrator of the more restrictive environment, or the administrator's designee, and the child's former treatment provider or facility.

(d) If the child has been in a less restrictive environment for more than 30 days and is aggrieved by the change to a more restrictive environment, the child or the child's representative may request a review within 30 days of the change, by a neutral and detached fact finder as described in Subsection (3). The fact finder shall determine whether:

(i) the less restrictive environment in which the child has been placed is exacerbating the child's mental illness or increasing the risk of harm to self or others; or
(ii) the less restrictive environment in which the child has been placed is not exacerbating the child's mental illness or increasing the risk of harm to self or others, in which case the fact finder shall designate that the child remain in the less restrictive environment.

(e) Nothing in this section prevents a local mental health authority or its designee, in conjunction with the child's current mental health professional, from discharging a child from commitment or from placing a child in an environment that is less restrictive than that designated by the neutral and detached fact finder.

(13) Each local mental health authority or its designee, in conjunction with the child's current treating mental health professional shall discharge any child who, in the opinion of that local authority, or its designee, and the child's current treating mental health professional, no longer meets the criteria specified in Subsection (4), except as provided by Section 78A-6-120. The local authority and the mental health professional shall assure that any further supportive services required to meet the child's needs upon release will be provided.

(14) Even though a child has been committed to the physical custody of a local mental health authority under this section, the child is still entitled to additional due process proceedings, in accordance with Section 62A-15-704, before any treatment that may affect a constitutionally protected liberty or privacy interest is administered. Those treatments include, but are not limited to, antipsychotic medication, electroshock therapy, and psychosurgery.

Amended by Chapter 256, 2019 General Session

(1) For purposes of this section, "invasive treatment" means treatment in which a constitutionally protected liberty or privacy interest may be affected, including antipsychotic medication, electroshock therapy, and psychosurgery.

(2) The requirements of this section apply to all children receiving services or treatment from a local mental health authority, its designee, or its provider regardless of whether a local mental health authority has physical custody of the child or the child is receiving outpatient treatment from the local authority, its designee, or provider.

(3)

(a) The division shall promulgate rules, in accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act, establishing due process procedures for children prior to any invasive treatment as follows:

(i) with regard to antipsychotic medications, if either the parent or child disagrees with that treatment, a due process proceeding shall be held in compliance with the procedures established under this Subsection (3);

(ii) with regard to psychosurgery and electroshock therapy, a due process proceeding shall be conducted pursuant to the procedures established under this Subsection (3), regardless of whether the parent or child agree or disagree with the treatment; and

(iii) other possible invasive treatments may be conducted unless either the parent or child disagrees with the treatment, in which case a due process proceeding shall be conducted pursuant to the procedures established under this Subsection (3).

(b) In promulgating the rules required by Subsection (3)(a), the division shall consider the advisability of utilizing an administrative law judge, court proceedings, a neutral and detached fact finder, and other methods of providing due process for the purposes of this section. The division shall also establish the criteria and basis for determining when invasive treatment should be administered.

(1) Subject to Subsection (1)(b), commitment proceedings for a child may be commenced by filing a written application with the juvenile court of the county in which the child resides or is found, in accordance with the procedures described in Section 62A-15-631.

(b) Commitment proceedings under this section may be commenced only after a commitment proceeding under Section 62A-15-703 has concluded without the child being committed.

(2) The juvenile court shall order commitment to the physical custody of a local mental health authority if, upon completion of the hearing and consideration of the record, it finds by clear and convincing evidence that:

(a) the child has a mental illness, as defined in Section 62A-15-602;
(b) the child demonstrates a risk of harm to himself or others;
(c) the child is experiencing significant impairment in the child's ability to perform socially;
(d) the child will benefit from the proposed care and treatment; and
(e) there is no appropriate less restrictive alternative.

(3) The local mental health authority has an affirmative duty to conduct periodic reviews of children committed to its custody pursuant to this section, and to release any child who has sufficiently improved so that the local mental health authority or its designee determines that commitment is no longer appropriate.

The division shall establish the position of a parent advocate to assist parents of children with a mental illness who are subject to the procedures required by this part.

(1) Notwithstanding the provisions of Title 63G, Chapter 2, Government Records Access and Management Act, all certificates, applications, records, and reports made for the purpose of this part that directly or indirectly identify a patient or former patient or an individual whose commitment has been sought under this part, shall be kept confidential and may not be disclosed by any person except as follows:

(a) the individual identified consents after reaching 18 years of age;
(b) the child's parent or legal guardian consents;
(c) disclosure is necessary to carry out any of the provisions of this part; or
(d) a court may direct, upon its determination that disclosure is necessary for the conduct of proceedings before it, and that failure to make the disclosure would be contrary to the public interest.

(2) A person who violates any provision of this section is guilty of a class B misdemeanor.

Mechanical restraints may not be applied to a child unless it is determined, by the local mental health authority or its designee in conjunction with the child's current treating mental health professional, that they are required by the needs of that child. Every use of a mechanical restraint and the reasons for that use shall be made a part of the child's clinical record, under the signature of the local mental health authority, its designee, and the child's current treating mental health professional.

(1) Subject to the specific rules of the division, and except to the extent that the local mental health authority or its designee, in conjunction with the child's current treating mental health professional, determines that it is necessary for the welfare of the person to impose restrictions, every child committed to the physical custody of a local mental health authority under Section 62A-15-703 is entitled to:
- communicate, by sealed mail or otherwise, with persons, including official agencies, inside or outside of the facility;
- receive visitors; and
- exercise his civil rights.

(2) When any right of a child is limited or denied, the nature, extent, and reason for that limitation or denial shall be entered in the child's treatment record. Any continuing denial or limitation shall be reviewed every 30 days and shall also be entered in that treatment record. Notice of that continuing denial in excess of 30 days shall be sent to the division.

(3) Notwithstanding any limitations authorized under this section on the right of communication, each child committed to the physical custody of a local mental health authority is entitled to communicate by sealed mail with his attorney, the local mental health authority, its designee, his current treating mental health professional, and the court, if commitment was court ordered. In no case may the child be denied a visit with the legal counsel or clergy of his choice.

(4) Each local mental health authority shall provide appropriate and reasonable means and arrangements for informing children and their parents or legal guardians of their rights as provided in this part, and for assisting them in making and presenting requests for release.

(5) All local mental health facilities shall post a statement, promulgated by the division, describing patient's rights under Utah law.

(1) The division shall ensure that the requirements of this part are met and applied uniformly by local mental health authorities across the state.
(2) Because the division must, under Section 62A-15-103, contract with, review, approve, and oversee local mental health authority plans, and withhold funds from local mental health authorities and public and private providers for contract noncompliance or misuse of public funds, the division shall:
(a) require each local mental health authority to submit its plan to the division by May 1 of each year; and
(b) conduct an annual program audit and review of each local mental health authority in the state, and its contract provider.
(3) The annual audit and review described in Subsection (2)(b) shall, in addition to items determined by the division to be necessary and appropriate, include a review and determination regarding whether or not:
(a) public funds allocated to local mental health authorities are consistent with services rendered and outcomes reported by it or its contract provider; and
(b) each local mental health authority is exercising sufficient oversight and control over public funds allocated for mental health programs and services.
(4) The Legislature may refuse to appropriate funds to the division if the division fails to comply with the procedures and requirements of this section.

Amended by Chapter 167, 2013 General Session

When the division contracts with a local mental health authority to provide mental health programs and services in accordance with the provisions of this chapter and Title 17, Chapter 43, Part 3, Local Mental Health Authorities, it shall ensure that those contracts include at least the following provisions:

(2) in addition to the requirements described in Title 51, Chapter 2a, Accounting Reports from Political Subdivisions, Interlocal Organizations, and Other Local Entities Act, the division:
(a) shall prescribe guidelines and procedures, in accordance with those formulated by the state auditor pursuant to Section 67-3-1, for auditing the compensation and expenses of officers, directors, and specified employees of the private contract provider, to assure the state that no personal benefit is gained from travel or other expenses; and
(b) may prescribe specific items to be addressed by that audit, depending upon the particular needs or concerns relating to the local mental health authority or contract provider at issue;
(3) the local mental health authority or its contract provider shall invite and include all funding partners in its auditor's pre- and exit conferences;
(4) each member of the local mental health authority shall annually certify that he has received and reviewed the independent audit and has participated in a formal interview with the provider's executive officers;
(5) requested information and outcome data will be provided to the division in the manner and within the timelines defined by the division;
(6) all audit reports by state or county persons or entities concerning the local mental health authority or its contract provider shall be provided to the executive director of the department, the local mental health authority, and members of the contract provider's governing board; and
(7) the local mental health authority or its contract provider will offer and provide mental health services to residents who are indigent and who meet state criteria for serious and persistent mental illness or severe emotional disturbance.

Part 8
Interstate Compact on Mental Health

   The Interstate Compact on Mental Health is hereby enacted and entered into with all other jurisdictions that legally join in the compact, which is, in form, substantially as follows:
   INTERSTATE COMPACT ON MENTAL HEALTH
   The contracting states solemnly agree that:
   Article I
   The proper and expeditious treatment of the mentally ill can be facilitated by cooperative action, to the benefit of the patients, their families, and society as a whole. Further, the party states find that the necessity of and desirability of furnishing that care and treatment bears no primary relation to the residence or citizenship of the patient but that the controlling factors of community safety and humanitarianism require that facilities and services be made available for all who are in need of them. Consequently, it is the purpose of this compact and of the party states to provide the necessary legal and constitutional basis for commitment or other appropriate care and treatment of the mentally ill under a system that recognizes the paramount importance of patient welfare and to establish the responsibilities of the party states.
   The appropriate authority in this state for making determinations under this compact is the director of the division or his designee.
   Article II
   As used in this compact:
   (1) "After-care" means care, treatment, and services provided to a patient on convalescent status or conditional release.
   (2) "Institution" means any hospital, program, or facility maintained by a party state or political subdivision for the care and treatment of persons with a mental illness.
   (3) "Mental illness" means a psychiatric disorder as defined by the current Diagnostic and Statistical Manual of Mental Disorders, that substantially impairs a person's mental, emotional, behavioral, or related functioning to such an extent that he requires care and treatment for his own welfare, the welfare of others, or the community.
(4) "Patient" means any person subject to or eligible, as determined by the laws of the sending state, for institutionalization or other care, treatment, or supervision pursuant to the provisions of this compact and constitutional due process requirements.

(5) "Receiving state" means a party state to which a patient is transported pursuant to the provisions of the compact or to which it is contemplated that a patient may be sent.

(6) "Sending state" means a party state from which a patient is transported pursuant to the provisions of the compact or from which it is contemplated that a patient may be sent.

(7) "State" means any state, territory, or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

Article III

(1) Whenever a person physically present in any party state is in need of institutionalization because of mental illness, he shall be eligible for care and treatment in an institution in that state, regardless of his residence, settlement, or citizenship qualifications.

(2) Notwithstanding the provisions of Subsection (1) of this article, any patient may be transferred to an institution in another state whenever there are factors, based upon clinical determinations, indicating that the care and treatment of that patient would be facilitated or improved by that action. Any such institutionalization may be for the entire period of care and treatment or for any portion or portions thereof. The factors to be considered include the patient's full record with due regard for the location of the patient's family, the character of his illness and its probable duration, and other factors considered appropriate by authorities in the party state and the director of the division, or his designee.

(3) No state is obliged to receive any patient pursuant to the provisions of Subsection (2) of this article unless the sending state has:

(a) given advance notice of its intent to send the patient;
(b) furnished all available medical and other pertinent records concerning the patient;
(c) given the qualified medical or other appropriate clinical authorities of the receiving state an opportunity to examine the patient; and
(d) determined that the receiving state agrees to accept the patient.

(4) In the event that the laws of the receiving state establish a system of priorities for the admission of patients, an interstate patient under this compact shall receive the same priority as a local patient and shall be taken in the same order and at the same time that he would be taken if he were a local patient.

(5) Pursuant to this compact, the determination as to the suitable place of institutionalization for a patient may be reviewed at any time and further transfer of the patient may be made as is deemed to be in the best interest of the patient, as determined by appropriate authorities in the receiving and sending states.

Article IV

(1) Whenever, pursuant to the laws of the state in which a patient is physically present, it is determined that the patient should receive after-care or supervision, that care or supervision may be provided in the receiving state. If the medical or other appropriate clinical authorities who have responsibility for the care and treatment of the patient in the sending state believe that after-care in another state would be in the best interest of the patient and would not jeopardize the public safety, they shall request the appropriate authorities in the receiving state to investigate the desirability of providing the patient with after-care in the receiving state. That request for investigation shall be accompanied by complete information concerning the patient's intended place of residence and the identity of the person in whose charge the patient would be placed, the complete medical history of the patient, and other pertinent documents.
(2) If the medical or other appropriate clinical authorities who have responsibility for the care and treatment of the patient in the sending state, and the appropriate authorities in the receiving state find that the best interest of the patient would be served, and if the public safety would not be jeopardized, the patient may receive after-care or supervision in the receiving state.

(3) In supervising, treating, or caring for a patient on after-care pursuant to the terms of this article, a receiving state shall employ the same standards of visitation, examination, care, and treatment as for similar local patients.

Article V

Whenever a dangerous or potentially dangerous patient escapes from an institution in any party state, that state shall promptly notify all appropriate authorities both within and without the jurisdiction of the escape in a manner reasonably calculated to facilitate the speedy apprehension of the escapee. Immediately upon the apprehension and identification of that patient, he shall be detained in the state where found, pending disposition in accordance with the laws of that state.

Article VI

Accredited officers of any party state, upon the establishment of their authority and the identity of the patient, shall be permitted to transport any patient being moved pursuant to this compact through any and all states party to this compact, without interference.

Article VII

(1) No person may be deemed a patient of more than one institution at any given time. Completion of transfer of any patient to an institution in a receiving state has the effect of making the person a patient of the institution in the receiving state.

(2) The sending state shall pay all costs of and incidental to the transportation of any patient pursuant to this compact, but any two or more party states may, by making a specific agreement for that purpose, arrange for a different allocation of costs among themselves.

(3) No provision of this compact may be construed to alter or affect any internal relationships among the departments, agencies, and officers of a party state, or between a party state and its subdivisions, as to the payment of costs or responsibilities.

(4) Nothing in this compact may be construed to prevent any party state or any of its subdivisions from asserting any right against any person, agency, or other entity with regard to costs for which that party state or its subdivision may be responsible under this compact.

(5) Nothing in this compact may be construed to invalidate any reciprocal agreement between a party state and a nonparty state relating to institutionalization, care, or treatment of the mentally ill, or any statutory authority under which those agreements are made.

Article VIII

(1) Nothing in this compact may be construed to abridge, diminish, or in any way impair the rights, duties, and responsibilities of any patient's guardian on his own behalf or with respect to any patient for whom he serves, except that when the transfer of a patient to another jurisdiction makes advisable the appointment of a supplemental or substitute guardian, a court of competent jurisdiction in the receiving state may make supplemental or substitute appointments. In that case, the court that appointed the previous guardian shall, upon being advised of the new appointment and upon the satisfactory completion of accounting and other acts as the court may require, relieve the previous guardian of power and responsibility to whatever extent is appropriate in the circumstances.

However, in the case of any patient having settlement in the sending state, a court of competent jurisdiction in the sending state has the sole discretion to relieve a guardian appointed by it or to continue his power and responsibility, as it deems advisable. The court in the receiving state may, in its discretion, confirm or reappoint the person or persons previously serving as guardian in the sending state in lieu of making a supplemental or substitute appointment.
(2)  The term "guardian" as used in Subsection (1) of this article includes any guardian, trustee, legal committee, conservator, or other person or agency however denominated, who is charged by law with power to act for the person or property of a patient.

Article IX

(1)  No provision of this compact except Article V applies to any person institutionalized while under sentence in a penal or correctional institution, while subject to trial on a criminal charge, or whose institutionalization is due to the commission of an offense for which, in the absence of mental illness, he would be subject to incarceration in a penal or correctional institution.

(2)  To every extent possible, it shall be the policy of party states that no patient be placed or detained in any prison, jail, or lockup, but shall, with all expedition, be taken to a suitable institutional facility for mental illness.

Article X

(1)  Each party state shall appoint a "compact administrator" who, on behalf of his state, shall act as general coordinator of activities under the compact in his state and receive copies of all reports, correspondence, and other documents relating to any patient processed under the compact by his state, either in the capacity of sending or receiving state. The compact administrator, or his designee, shall deal with all matters relating to the compact and patients processed under the compact. In this state the director of the division, or his designee shall act as the "compact administrator."

(2)  The compact administrators of the respective party states have power to promulgate reasonable rules and regulations as are necessary to carry out the terms and provisions of this compact. In this state, the division has authority to establish those rules in accordance with the Utah Administrative Rulemaking Act.

(3)  The compact administrator shall cooperate with all governmental departments, agencies, and officers in this state and its subdivisions in facilitating the proper administration of the compact and any supplementary agreement or agreements entered into by this state under the compact.

(4)  The compact administrator is hereby authorized and empowered to enter into supplementary agreements with appropriate officials of other states pursuant to Articles VII and XI of this compact. In the event that supplementary agreements require or contemplate the use of any institution or facility of this state or require or contemplate the provision of any service by this state, that agreement shall have no force unless approved by the director of the department or agency under whose jurisdiction the institution or facility is operated, or whose department or agency will be charged with the rendering of services.

(5)  The compact administrator may make or arrange for any payments necessary to discharge financial obligations imposed upon this state by the compact or by any supplementary agreement entered into under the compact.

Article XI

Administrative authorities of any two or more party states may enter into supplementary agreements for the provision of any service or facility, or for the maintenance of any institution on a joint or cooperative basis whenever the states concerned find that those agreements will improve services, facilities, or institutional care and treatment of persons who are mentally ill. A supplementary agreement may not be construed to relieve a party state of any obligation that it otherwise would have under other provisions of this compact.

Article XII

This compact has full force and effect in any state when it is enacted into law in that state. Thereafter, that state is a party to the compact with any and all states that have legally joined.

Article XIII
A party state may withdraw from the compact by enacting a statute repealing the compact. Withdrawal takes effect one year after notice has been communicated officially and in writing to the compact administrators of all other party states. However, the withdrawal of a state does not change the status of any patient who has been sent to that state or sent out of that state pursuant to the compact.

Article XIV

This compact shall be liberally construed so as to effectuate its purposes. The provisions of this compact are severable, and if any phrase, clause, sentence or provision is declared to be contrary to the constitution of the United States or the applicability to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and its applicability to any government, agency, person, or circumstance shall not be affected thereby. If this compact is held to be contrary to the constitution of any party state the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

Part 10
Declaration for Mental Health Treatment

As used in this part:
(1) "Attending physician" means a physician licensed to practice medicine in this state who has primary responsibility for the care and treatment of the declarant.
(2) "Attorney-in-fact" means an adult properly appointed under this part to make mental health treatment decisions for a declarant under a declaration for mental health treatment.
(3) "Incapable" means that, in the opinion of the court in a guardianship proceeding under Title 75, Utah Uniform Probate Code, or in the opinion of two physicians, a person's ability to receive and evaluate information effectively or communicate decisions is impaired to such an extent that the person currently lacks the capacity to make mental health treatment decisions.
(4) "Mental health facility" means the same as that term is defined in Section 62A-15-602.
(5) "Mental health treatment" means convulsive treatment, treatment with psychoactive medication, or admission to and retention in a facility for a period not to exceed 17 days.

Renumbered and Amended by Chapter 8, 2002 Special Session 5
(1) An adult who is not incapable may make a declaration of preferences or instructions regarding his mental health treatment. The declaration may include, but is not limited to, consent to or refusal of specified mental health treatment.
(2) A declaration for mental health treatment shall designate a capable adult to act as attorney-in-fact to make decisions about mental health treatment for the declarant. An alternative attorney-in-fact may also be designated to act as attorney-in-fact if the original designee is unable or unwilling to act at any time. An attorney-in-fact who has accepted the appointment in writing may make decisions about mental health treatment on behalf of the declarant only when the declarant is incapable. The decisions shall be consistent with any instructions or desires the declarant has expressed in the declaration.
(3) A declaration is effective only if it is signed by the declarant and two capable adult witnesses. The witnesses shall attest that the declarant is known to them, signed the declaration in their presence, appears to be of sound mind and is not under duress, fraud, or undue influence. Persons specified in Subsection 62A-15-1003(6) may not act as witnesses.
(4) A declaration becomes operative when it is delivered to the declarant's physician or other mental health treatment provider and remains valid until it expires or is revoked by the declarant. The physician or provider is authorized to act in accordance with an operative declaration when the declarant has been found to be incapable. The physician or provider shall continue to obtain the declarant's informed consent to all mental health treatment decisions if the declarant is capable of providing informed consent or refusal.
(5) (a) An attorney-in-fact does not have authority to make mental health treatment decisions unless the declarant is incapable.
(b) An attorney-in-fact is not, solely as a result of acting in that capacity, personally liable for the cost of treatment provided to the declarant.
(c) Except to the extent that a right is limited by a declaration or by any federal law, an attorney-in-fact has the same right as the declarant to receive information regarding the proposed mental health treatment and to receive, review, and consent to disclosure of medical records relating to that treatment. This right of access does not waive any evidentiary privilege.
(d) In exercising authority under the declaration, the attorney-in-fact shall act consistently with the instructions and desires of the declarant, as expressed in the declaration. If the declarant's desires are unknown, the attorney-in-fact shall act in what he, in good faith, believes to be the best interest of the declarant.
(e) An attorney-in-fact is not subject to criminal prosecution, civil liability, or professional disciplinary action for any action taken in good faith pursuant to a declaration for mental health treatment.
(6) (a) A declaration for mental health treatment remains effective for a period of three years or until revoked by the declarant. If a declaration for mental health treatment has been invoked and is in effect at the expiration of three years after its execution, the declaration remains effective until the declarant is no longer incapable.
(b) The authority of a named attorney-in-fact and any alternative attorney-in-fact continues in effect as long as the declaration appointing the attorney-in-fact is in effect or until the attorney-in-fact has withdrawn.
A person may not be required to execute or to refrain from executing a declaration as a criterion for insurance, as a condition for receiving mental or physical health services, or as a condition of discharge from a facility.

Renumbered and Amended by Chapter 8, 2002 Special Session 5
Renumbered and Amended by Chapter 8, 2002 Special Session 5

(1) Upon being presented with a declaration, a physician shall make the declaration a part of the declarant's medical record. When acting under authority of a declaration, a physician shall comply with it to the fullest extent possible, consistent with reasonable medical practice, the availability of treatments requested, and applicable law. If the physician or other provider is unwilling at any time to comply with the declaration, the physician or provider shall promptly notify the declarant and the attorney-in-fact, and document the notification in the declarant's medical record.

(2) A physician or provider may subject a declarant to intrusive treatment in a manner contrary to the declarant's wishes, as expressed in a declaration for mental health treatment if:
   (a) the declarant has been committed to the custody of a local mental health authority in accordance with Part 6, Utah State Hospital and Other Mental Health Facilities; or
   (b) in cases of emergency endangering life or health.

(3) A declaration does not limit any authority provided in Part 6, Utah State Hospital and Other Mental Health Facilities, to take a person into custody, or admit or retain a person in the custody of a local mental health authority.

(4) A declaration may be revoked in whole or in part by the declarant at any time so long as the declarant is not incapable. That revocation is effective when the declarant communicates the revocation to the attending physician or other provider. The attending physician or other provider shall note the revocation as part of the declarant's medical record.

(5) A physician who administers or does not administer mental health treatment according to and in good faith reliance upon the validity of a declaration is not subject to criminal prosecution, civil liability, or professional disciplinary action resulting from a subsequent finding that a declaration is invalid.

(6) None of the following persons may serve as an attorney-in-fact or as witnesses to the signing of a declaration:
   (a) the declarant's attending physician or mental health treatment provider, or an employee of that physician or provider;
   (b) an employee of the division; or
   (c) an employee of a local mental health authority or any organization that contracts with a local mental health authority.

(7) An attorney-in-fact may withdraw by giving notice to the declarant. If a declarant is incapable, the attorney-in-fact may withdraw by giving notice to the attending physician or provider. The attending physician shall note the withdrawal as part of the declarant's medical record.

The person you appoint has a duty to act consistently with your desires as stated in this document or, if not stated, to make decisions in accordance with what that person believes, in good faith, to be in your best interest. For the appointment to be effective, the person you appoint must accept the appointment in writing. The person also has the right to withdraw from acting as your attorney-in-fact at any time;

A revocation is effective when it is communicated to your attending physician or other provider; and

(6) if there is anything in this document that you do not understand, you should ask an attorney to explain it to you. This declaration is not valid unless it is signed by two qualified witnesses who are personally known to you and who are present when you sign or acknowledge your signature.
