

Effective 5/6/2026

79-6-1504 Utah Nuclear Lifecycle Innovation Campus authorization and scope.

- (1) The office, in consultation with relevant state agencies, may discuss with the United States Department of Energy the potential for the state to host a campus as described in the January 28, 2026, Request for Information issued by the United States Department of Energy, entitled "Request for Information on Establishment of Nuclear Lifecycle Innovation Campuses."
- (2) The scope of the campus may include:
 - (a) facilities for fuel fabrication, uranium conversion and enrichment, and the reprocessing of used nuclear fuel;
 - (b) deployment of advanced modular reactors and micro-reactors;
 - (c) development of secure, long-term pathways for used nuclear material consistent with national security and environmental safety standards; and
 - (d) co-located users and providers of campus products, such as isotopes, heat, or nuclear supply chain manufacturing.
