(3) Weighting factors:

- 2087 (a) The weighting factors referred to in the formulas stated in Subsection (2) are given in 2088 the following tables:
- 2089 (i) Weighting factors for life insurance:

2090	Guarantee Duration (Years)	Weighting Factors
2091	10 or less:	.50
2092	More than 10, but less than 20:	.45
2093	More than 20:	.35

For life insurance, the guarantee duration is the maximum number of years the life insurance can remain in force on a basis guaranteed in the policy or under options to convert to plans of life insurance with premium rates or nonforfeiture values or both which are guaranteed in the original policy;

(ii) Weighting factor for single premium immediate annuities and for annuity benefits
involving life contingencies arising from other annuities with cash settlement options and
guaranteed interest contracts with cash settlement options: .80

(iii) Weighting factors for other annuities and for guaranteed interest contracts, except asstated in Subsection (ii), shall be as specified in Tables (A), (B), and (C) below, according to the

2129	(D) For other annuities with cash settlement	t options and g	guarante	eed interest contracts with
2130	cash settlement options, the guarantee duration is th	e number of y	ears for	which the contract
2131	guarantees interest rates in excess of the calendar ye	ear statutory va	aluation	interest rate for life
2132	insurance policies with guarantee duration in excess	of 20 years. H	For othe	er annuities with no cash

2133 settlement options and for guaranteed interest contracts with no cash settlement options, the

2134	guaranteed duration is the number of years from the date of issue or date of purchase to the date
2135	annuity benefits are scheduled to commence.
2136	(E) Plan type as used in the above tables is defined as follows:
2137	Plan Type A: At any time policyholder may withdraw funds only:
2138	(I) with an adjustment to reflect changes in interest rates or asset values since receipt of
2139	the funds by the insurance company, or (II) without such adjustment but installments over five
2140	years or more, or (III) as an immediate life annuity, or (IV) no withdrawal permitted.

2143	(I) with an adjustment to reflect changes in interest rates or asset values since receipt of
2144	the funds by the insurance company, or (II) without such adjustment but in installments over five
2145	years or more, or (III) no withdrawal permitted. At the end of interest rate guarantee, funds may
2146	be withdrawn without such adjustment in a single sum or installments over less than five years.
2147	Plan Type C: Policyholder may withdraw funds before expiration of interest rate guarantee
2148	in a single sum or installments over less than five years either:
2149	(I) without adjustment to reflect changes in interest rates or asset values since receipt of
2150	the funds by the insurance company, or (II) subject only to a fixed surrender charge stipulated in
2151	the contract as a percentage of the fund.
2152	(F) A company may elect to value guaranteed interest contracts with cash settlement
2153	options and annuities with cash settlement options on either an issue year basis or on a change in
2154	fund basis. Guaranteed interest contracts with no cash settlement options and other annuities with
2155	no cash settlement options must be valued on an issue year basis. As used in this section, an issue
2156	year basis of valuation refers to a valuation basis under which the interest rate used to determine
2157	the minimum valuation standard for the entire duration of the annuity or guaranteed interest
2158	contract is the calendar year valuation interest rate for the year of issue or year of purchase of the
2159	annuity or guaranteed interest contract, and the change in fund basis of valuation refers to a
2160	valuation basis under which the interest rate used to determine the minimum valuation standard
2161	applicable to each change in the fund held under the annuity or guaranteed interest contract is the
2162	calendar year valuation interest rate for the year of the change in the fund.

(b) For single premium immediate annuities and for annuity benefits involving life
contingencies arising from other annuities with cash settlement options and guaranteed interest
contracts with cash settlement options, the average over a period of 12 months, ending on June 30

(e) For other annuities with no cash settlement options and for guaranteed interest
contracts with no cash settlement options, the average over a period of 12 months, ending on June

2196	by Moody's Investors Service, Inc. or in the event that the National Association of Insurance
2197	Commissioners determines that the Monthly Average of the Composite Yield on Seasoned
2198	Corporate Bonds as published by Moody's Investors Service, Inc. is no longer appropriate for the
2199	determination of the reference interest rate, then an alternative method for determination of the
2200	reference interest rate, which is adopted by the National Association of Insurance Commissioners
2201	and approved by rule promulgated by the commissioner, may be substituted.
