State Impact

This bill would allow non-profit agencies to claim computers from State Surplus that normally would be sold to the public. Estimated computer sales for FY 2004 range from \$30,000 to \$60,000. All revenue is held by the State Surplus Property program, so the loss of revenue will not directly impact state funds.

The lost revenue assumes sales of \$60,000, but that half of those sales will be lost to the new program.
