(2) (a) (i) Every person who manufactures, produces, distributes, prescribes, dispenses, administers, conducts research with, or performs laboratory analysis upon any controlled substance in Schedules II through V within this state, or who proposes to engage in manufacturing, producing, distributing, prescribing, dispensing, administering, conducting research with, or performing laboratory analysis upon controlled substances included in Schedules II through V within this state shall obtain a license issued by the division.

(ii) The division shall issue each license under this chapter in accordance with a two-year renewal cycle established by rule. The division may by rule extend or shorten a renewal period by as much as one year to stagger the renewal cycles it administers.

(b) Persons licensed to manufacture, produce, distribute, prescribe, dispense, administer, conduct research with, or perform laboratory analysis upon controlled substances in Schedules II through V within this state may possess, manufacture, produce, distribute, prescribe, dispense, administer, conduct research with, or perform laboratory analysis upon those substances to the extent authorized by their license and in conformity with this chapter.

(c) The following persons are not required to obtain a license and may lawfully possess controlled substances under this section:

(i) an agent or employee, except a sales representative, of any registered manufacturer, distributor, or dispenser of any controlled substance, if the agent or employee is acting in the usual course of his business or employment; however, nothing in this subsection shall be interpreted to permit an agent, employee, sales representative, or detail man to maintain an inventory of controlled substances separate from the location of his employer's registered and

64 a lawful order of a practitioner.

65 (d) The division may enact rules waiving the license requirement for certain
66 manufacturers, producers, distributors, prescribers, dispensers, administrators, research
67 practitioners, or laboratories performing analysis if consistent with the public health and safety.

68 (e) A separate license is required at each principal place of business or professional
69 practice where the applicant manufactures, produces, distributes, dispenses, conducts research
70 with, or performs laboratory analysis upon controlled substances.

71 (f) The division may enact rules providing for the inspection of a licensee or applicant's
72 establishment, and may inspect the establishment according to those rules.

73 (3) (a) Upon proper application, the division shall license a qualified applicant to
74 manufacture, produce, distribute, conduct research with, or perform laboratory analysis upon
75 controlled substances included in Schedules I through V, unless it determines that issuance of a
76 license is inconsistent with the public interest. The division shall not issue a license to any
77 person to prescribe, dispense, or administer a Schedule I controlled substance. In determining
78 public interest, the division shall consider whether or not the applicant has:

94 research under the laws of this state.

95 (ii) The division need not require a separate license for practitioners engaging in
96 research with nonnarcotic controlled substances in Schedules II through V where the licensee is
97 already licensed under this act in another capacity.

98 (iii) With respect to research involving narcotic substances in Schedules II through V,
99 or where the division by rule requires a separate license for research of nonnarcotic substances
100 in Schedules II through V, a practitioner shall apply to the division prior to conducting
101 research.

102 (iv) Licensing for purposes of bona fide research with controlled substances by a
103 practitioner considered qualified may be denied only on a ground specified in Subsection (4),
104 or upon evidence that the applicant will abuse or unlawfully transfer or fail to safeguard
105 adequately his supply of substances against diversion from medical or scientific use.

106 (v) Practitioners registered under federal law to conduct research in Schedule I
107 substances may conduct research in Schedule I substances within this state upon furnishing the
108 division evidence of federal registration.

109 (d) Compliance by manufacturers, producers, and distributors with the provisions of
110 federal law respecting registration, excluding fees, entitles them to be licensed under this
111 chapter.

113 establishment engaged in the manufacture, production, distribution, dispensation, or
114 administration of controlled substances prior to April 3, 1980, and who are licensed by the
115 state.

116 (4) (a) Any license pursuant to Subsection (2) or (3) may be denied, suspended, placed

(v) had his license suspended or revoked by competent authority of another state for violation of laws or regulations comparable to those of this state relating to the manufacture, distribution, or dispensing of controlled substances;

(d) (i) The division may suspend any license simultaneously with the institution of proceedings under this section if it finds there is an imminent danger to the public health or safety.

(iii) If a revocation order becomes final, all controlled substances shall be forfeited.

(f) The division shall notify promptly the Drug Enforcement Administration of all orders suspending or revoking a license and all forfeitures of controlled substances.
