251 **26-28-104. Who may make anatomical gift before donor's death.**

252 Subject to Section 26-28-108, an anatomical gift of a donor's body or part may be made
253 during the life of the donor for the purpose of transplantation, therapy, research, or education in
254 the manner provided in Section 26-28-105 by:

255 (1) the donor, if the donor is an adult or if the donor is a minor and is:

274 making the gift or by authorizing that a statement or symbol indicating that the donor has made
275 an anatomical gift be included on a donor registry. If the donor or other person is physically

unable to sign a record, the record may be signed by another individual at the direction of the donor or other person and must:

(a) be witnessed by at least two adults, at least one of whom is a disinterested witness, who have signed at the request of the donor or the other person; and

(b) state that it has been signed and witnessed as provided in Subsection (2)(a).

(3) Revocation, suspension, expiration, or cancellation of a driver license or identification card upon which an anatomical gift is indicated does not invalidate the gift.

(4) An anatomical gift made by will takes effect upon the donor's death whether or not the will is probated. Invalidation of the will after the donor's death does not invalidate the gift.

Section 8. Section **26-28-106** is enacted to read:

26-28-106. Amending or revoking anatomical gift before donor's death.

(1) Subject to Section 26-28-108, a donor or other person authorized to make an anatomical gift under Section 26-28-104 may amend or revoke an anatomical gift by:

(b) a later-executed document of gift that amends or revokes a previous anatomical gift or portion of an anatomical gift, either expressly or by inconsistency.

(2) A record signed pursuant to Subsection (1)(a)(iii) must:

(a) be witnessed by at least two adults, at least one of whom is a disinterested witness, who have signed at the request of the donor or the other person; and

(b) state that it has been signed and witnessed as provided in Subsection (1)(a).

(b) state that it has been signed and witnessed as provided in Subsection (1)(a).

(3) An individual who has made a refusal may amend or revoke the refusal:

(a) in the manner provided in Subsection (1) for making a refusal;

(b) by subsequently making an anatomical gift pursuant to Section 26-28-105 that is inconsistent with the refusal; or

(c) by destroying or canceling the record evidencing the refusal, or the portion of the record used to make the refusal, with the intent to revoke the refusal.

(4) Except as otherwise provided in Subsection 26-28-108(8), in the absence of an express, contrary indication by the individual set forth in the refusal, an individual's unrevoked refusal to make an anatomical gift of the individual's body or part bars all other persons from making an anatomical gift of the individual's body or part.

Section 10. Section **26-28-108** is enacted to read:

26-28-108. Preclusive effect of anatomical gift, amendment, or revocation.

(1) Except as otherwise provided in Subsection (7) and subject to Subsection (6), in the

338 absence of an express, contrary indication by the donor, a person other than the donor is barred
339 from making, amending, or revoking an anatomical gift of a donor's body or part if the donor
340 made an anatomical gift of the donor's body or part under Section 26-28-105 or an amendment
341 to an anatomical gift of the donor's body or part under Section 26-28-106.

342 (2) A donor's revocation of an anatomical gift of the donor's body or part under Section
343 26-28-106 is not a refusal and does not bar another person specified in Section 26-28-104 or
344 26-28-109 from making an anatomical gift of the donor's body or part under Section 26-28-105
345 or 26-28-110.

346 (3) If a person other than the donor makes an unrevoked anatomical gift of the donor's
347 body or part under Section 26-28-105 or an amendment to an anatomical gift of the donor's
348 body or part under Section 26-28-106, another person may not make, amend, or revoke the gift
349 of the donor's body or part under Section 26-28-110.

350 (4) A revocation of an anatomical gift of a donor's body or part under Section
351 26-28-106 by a person other than the donor does not bar another person from making an
352 anatomical gift of the body or part under Section 26-28-105 or 26-28-110.

353 (5) In the absence of an express, contrary indication by the donor or other person
354 authorized to make an anatomical gift under Section 26-28-104, an anatomical gift of a part is
355 neither a refusal to give another part nor a limitation on the making of an anatomical gift of
356 another part at a later time by the donor or another person.

357 (6) In the absence of an express, contrary indication by the donor or other person
358 authorized to make an anatomical gift under Section 26-28-104, an anatomical gift of a part for
359 one or more of the purposes set forth in Section 26-28-104 is not a limitation on the making of
360 an anatomical gift of the part for any of the other purposes by the donor or any other person
361 under Section 26-28-105 or 26-28-110.

362 (7) If a donor who is an unemancipated minor dies, a parent of the donor who is
363 reasonably available may revoke or amend an anatomical gift of the donor's body or part.

364 (8) If an unemancipated minor who signed a refusal dies, a parent of the minor who is
365 reasonably available may revoke the minor's refusal.

366 Section 11. Section **26-28-109** is enacted to read:

367 **26-28-109. Who may make anatomical gift of decedent's body or part.**

368 (1) Subject to Subsections (2) and (3) and unless barred by Section 26-28-107 or

26-28-108, an anatomical gift of a decedent's body or part for purpose of transplantation, therapy, research, or education may be made by any member of the following classes of persons who is reasonably available, in the order of priority listed:

(a) an agent of the decedent at the time of death who could have made an anatomical gift under Subsection 26-28-104(2) immediately before the decedent's death;

(b) the spouse of the decedent;

(c) adult children of the decedent;

(d) parents of the decedent;

(e) adult siblings of the decedent;

(f) adult grandchildren of the decedent;

(g) grandparents of the decedent;

(h) the persons who were acting as the guardians of the person of the decedent at the time of death; and

(i) any other person having the authority to dispose of the decedent's body.

(2) If there is more than one member of a class listed in Subsection (1)(a), (c), (d), (e), (f), (g), or (i) entitled to make an anatomical gift, an anatomical gift may be made by a member of the class unless that member or a person to which the gift may pass under Section 26-28-111 knows of an objection by another member of the class. If an objection is known, the gift may be made only by a majority of the members of the class who are reasonably available.

(3) A person may not make an anatomical gift if, at the time of the decedent's death, a person in a prior class under Subsection (1) is reasonably available to make or to object to the making of an anatomical gift.

Section 12. Section **26-28-110** is enacted to read:

26-28-110. Manner of making, amending, or revoking anatomical gift of decedent's body or part.

(1) A person authorized to make an anatomical gift under Section 26-28-109 may make an anatomical gift by a document of gift signed by the person making the gift or by that person's oral communication that is electronically recorded or is contemporaneously reduced to a record and signed by the individual receiving the oral communication.

(2) Subject to Subsection (3), an anatomical gift by a person authorized under Section 26-28-109 may be amended or revoked orally or in a record by any member of a prior class

who is reasonably available. If more than one member of the prior class is reasonably available, the gift made by a person authorized under Section 26-28-109 may be:

(a) amended only if a majority of the reasonably available members agree to the amending of the gift; or

(b) revoked only if a majority of the reasonably available members agree to the revoking of the gift or if they are equally divided as to whether to revoke the gift.

(3) A revocation under Subsection (2) is effective only if, before an incision has been made to remove a part from the donor's body or before invasive procedures have begun to prepare the recipient, the procurement organization, transplant hospital, or physician or technician knows of the revocation.

Section 13. Section 26-28-111 is enacted to read:

26-28-111. Persons that may receive anatomical gift -- Purpose of anatomical gift.

(1) An anatomical gift may be made to the following persons named in the document of gift:

(a) a hospital, accredited medical school, dental school, college, university, organ procurement organization, or other appropriate person, for research or education;

(b) subject to Subsection (2), an individual designated by the person making the anatomical gift if the individual is the recipient of the part; or

(c) an eye bank or tissue bank.

(2) If an anatomical gift to an individual under Subsection (1)(b) cannot be transplanted into the individual, the part passes in accordance with Subsection (7) in the absence of an express, contrary indication by the person making the anatomical gift.

(3) If an anatomical gift of one or more specific parts or of all parts is made in a document of gift that does not name a person described in Subsection (1) but identifies the purpose for which an anatomical gift may be used, the following rules apply:

(a) If the part is an eye and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate eye bank.

(b) If the part is tissue and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate tissue bank.

(c) If the part is an organ and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate organ procurement organization as custodian of the organ.

431 (d) If the part is an organ, an eye, or tissue and the gift is for the purpose of research or
432 education, the gift passes to the appropriate procurement organization.

433 (4) For the purpose of Subsection (3), if there is more than one purpose of an
434 anatomical gift set forth in the document of gift but the purposes are not set forth in any
435 priority, the gift must be used for transplantation or therapy, if suitable. If the gift cannot be
436 used for transplantation or therapy, the gift may be used for research or education.

437 (5) If an anatomical gift of one or more specific parts is made in a document of gift that
438 does not name a person described in Subsection (1) and does not identify the purpose of the
439 gift, the gift may be used only for transplantation or therapy, and the gift passes in accordance
440 with Subsection (7).

441 (6) If a document of gift specifies only a general intent to make an anatomical gift by
442 words such as "donor," "organ donor," or "body donor," or by a symbol or statement of similar
443 import, the gift may be used only for transplantation or therapy, and the gift passes in
444 accordance with Subsection (7).

449 organization as custodian of the organ.

450 (8) An anatomical gift of an organ for transplantation or therapy, other than an
451 anatomical gift under Subsection (1)(b), passes to the organ procurement organization as
452 custodian of the organ.

453 (9) If an anatomical gift does not pass pursuant to Subsections (2) through (8) or the
454 decedent's body or part is not used for transplantation, therapy, research, or education, custody
455 of the body or part passes to the person under obligation to dispose of the body or part.

456 (10) A person may not accept an anatomical gift if the person knows that the gift was
457 not effectively made under Section 26-28-105 or 26-28-110 or if the person knows that the
458 decedent made a refusal under Section 26-28-107 that was not revoked. For purposes of this
459 Subsection (10), if a person knows that an anatomical gift was made on a document of gift, the
460 person is considered to know of any amendment or revocation of the gift or any refusal to make
461 an anatomical gift on the same document of gift.

493 from a family member or other authorized person; and

494 (C) the period of time in which embalming is prohibited under Subsection (1)(c)(ii)
495 may not exceed 24 hours after death.

499 gift or refusal to the hospital.

506 a refusal to make an anatomical gift with respect to the individual shall allow examination and
507 copying of the document of gift or refusal by a person authorized to make or object to the
508 making of an anatomical gift with respect to the individual or by a person to which the gift
509 could pass under Section 26-28-111.

520 the organization may conduct any reasonable examination necessary to ensure the medical
521 suitability of a part that is or could be the subject of an anatomical gift for transplantation,
522 therapy, research, or education from a donor or a prospective donor. During the examination
523 period, measures necessary to ensure the medical suitability of the part may not be withdrawn

524 unless the hospital or procurement organization knows that the individual expressed a contrary
525 intent.

526 (4) Unless prohibited by law other than this chapter, at any time after a donor's death,
527 the person to which a part passes under Section 26-28-111 may conduct any reasonable

538 make a reasonable search for any person listed in Section 26-28-109 having priority to make an

540 information that an anatomical gift to any other person was made, amended, or revoked, it shall
541 promptly advise the other person of all relevant information.

542 (8) Subject to Subsection 26-28-111(9) and Section 26-28-123, the rights of the person

545 Subject to the terms of the document of gift and this chapter, a person that accepts an
546 anatomical gift of an entire body may allow embalming, burial or cremation, and use of

549 shall cause the part to be removed without unnecessary mutilation.

(2) If a document of gift is valid under this section, the law of this state governs the interpretation of the document of gift.

(3) A person may presume that a document of gift or amendment of an anatomical gift is valid unless that person knows that it was not validly executed or was revoked.

Section 22. Section **26-28-120** is enacted to read:

26-28-120. Donor registry.

(1) The Department of Public Safety may establish or contract for the establishment of a donor registry.

(a) allow a donor or other person authorized under Section 26-28-104 to include on the donor registry a statement or symbol that the donor has made, amended, or revoked an anatomical gift;

(b) be accessible to a procurement organization to allow it to obtain relevant information on the donor registry to determine, at or near death of the donor or a prospective donor, whether the donor or prospective donor has made, amended, or revoked an anatomical gift; and

(c) be accessible for purposes of Subsections (3)(a) and (b) seven days a week on a 24-hour basis.

(4) Personally identifiable information on a donor registry about a donor or prospective donor may not be used or disclosed without the express consent of the donor, prospective donor, or person that made the anatomical gift for any purpose other than to determine, at or

617 near death of the donor or prospective donor, whether the donor or prospective donor has
618 made, amended, or revoked an anatomical gift.

619 (5) This section does not prohibit any person from creating or maintaining a donor
620 registry that is not established by or under contract with the state. Any such registry must
621 comply with Subsections (3) and (4).

622 Section 23. Section **26-28-121** is enacted to read:

629 circumstances under which a life support system may be withheld or withdrawn from the
630 prospective donor.

632 prospective donor.

633 (2) If a prospective donor has a declaration or advance health care directive, measures
634 necessary to ensure the medical suitability of an organ for transplantation or therapy may not be
635 withheld or withdrawn from the prospective donor, unless the declaration expressly provides to
636 the contrary.

637 Section 24. Section **26-28-122** is enacted to read:

638 **26-28-122. Cooperation between medical examiner and procurement**
639 **organization.**

640 (1) A medical examiner shall cooperate with procurement organizations to maximize
641 the opportunity to recover anatomical gifts for the purpose of transplantation, therapy, research,
642 or education.

643 (2) If a medical examiner receives notice from a procurement organization that an
644 anatomical gift might be available or was made with respect to a decedent whose body is under
645 the jurisdiction of the medical examiner and a postmortem examination is going to be
646 performed, unless the medical examiner denies recovery in accordance with Section 26-28-123,
647 the medical examiner or designee shall conduct a postmortem examination of the body or the

part in a manner and within a period compatible with its preservation for the purposes of the gift.

(3) A part may not be removed from the body of a decedent under the jurisdiction of a medical examiner for transplantation, therapy, research, or education unless the part is the subject of an anatomical gift. The body of a decedent under the jurisdiction of the medical examiner may not be delivered to a person for research or education unless the body is the subject of an anatomical gift. This Subsection (3) does not preclude a medical examiner from performing the medicolegal investigation upon the body or parts of a decedent under the jurisdiction of the medical examiner.

Section 25. Section **26-28-123** is enacted to read:

26-28-123. Facilitation of anatomical gift from decedent whose body is under jurisdiction of medical examiner.

(1) Upon request of a procurement organization, a medical examiner shall release to the procurement organization the name, contact information, and available medical and social history of a decedent whose body is under the jurisdiction of the medical examiner. If the decedent's body or part is medically suitable for transplantation, therapy, research, or education, the medical examiner shall release postmortem examination results to the procurement organization. The procurement organization may make a subsequent disclosure of the postmortem examination results or other information received from the medical examiner only if relevant to transplantation or therapy.

(2) The medical examiner may conduct a medicolegal examination by reviewing all medical records, laboratory test results, x-rays, other diagnostic results, and other information that any person possesses about a donor or prospective donor whose body is under the jurisdiction of the medical examiner which the medical examiner determines may be relevant to the investigation.

(3) A person that has any information requested by a medical examiner pursuant to Subsection (2) shall provide that information as expeditiously as possible to allow the medical examiner to conduct the medicolegal investigation within a period compatible with the preservation of parts for the purpose of transplantation, therapy, research, or education.

(4) If an anatomical gift has been or might be made of a part of a decedent whose body is under the jurisdiction of the medical examiner and a postmortem examination is not

679 required, or the medical examiner determines that a postmortem examination is required but
680 that the recovery of the part that is the subject of an anatomical gift will not interfere with the
681 examination, the medical examiner and procurement organization shall cooperate in the timely
682 removal of the part from the decedent for the purpose of transplantation, therapy, research, or
683 education.

684 (5) If an anatomical gift of a part from the decedent under the jurisdiction of the
685 medical examiner has been or might be made, but the medical examiner initially believes that
686 the recovery of the part could interfere with the postmortem investigation into the decedent's
687 cause or manner of death, the medical examiner shall consult with the procurement
688 organization or physician or technician designated by the procurement organization about the
689 proposed recovery. After consultation, the medical examiner may allow the recovery.

690 (6) Following the consultation under Subsection (5), in the absence of mutually agreed
691 upon protocols to resolve conflict between the medical examiner and the procurement
692 organization, if the medical examiner intends to deny recovery, the medical examiner or
693 designee, at the request of the procurement organization, may attend the removal procedure for
694 the part before making a final determination not to allow the procurement organization to
695 recover the part. During the removal procedure, the medical examiner or designee may allow
696 recovery by the procurement organization to proceed, or, if the medical examiner or designee
697 reasonably believes that the part may be involved in determining the decedent's cause or
698 manner of death, deny recovery by the procurement organization.

699 (7) If the medical examiner or designee denies recovery under Subsection (6), the
700 medical examiner or designee shall:

- 701 (a) explain in a record the specific reasons for not allowing recovery of the part;
702 (b) include the specific reasons in the records of the medical examiner; and
703 (c) provide a record with the specific reasons to the procurement organization.

704 (8) If the medical examiner or designee allows recovery of a part under Subsection (4),
705 (5), or (6), the procurement organization, upon request, shall cause the physician or technician
706 who removes the part to provide the medical examiner with a record describing the condition
707 of the part, a biopsy, a photograph, and any other information and observations that would
708 assist in the postmortem examination.

709 (9) If a medical examiner or designee is required to be present at a removal procedure

under Subsection (6), upon request the procurement organization requesting the recovery of the part shall reimburse the medical examiner or designee for the additional costs incurred in complying with Subsection (6).
