H.B. 414 - Recycling Amendments

Fiscal Note

2008 General Session

State of Utah

State Impact

Enactment of this bill will not require additional appropriations.

Individual, Business and/or Local Impact

Enactment of this bill may lead to some additional costs to school districts and charter schools due to requirements of contracting "for the collection of recyclable material". However, there will be some offsets to waste removal fees in the amount of recyclable material. Costs or any cost savings will be largely dependent on contract negotiation of school districts and charter schools with local waste removal and recycling services.
