36 (1) As used in this section, "extended school year schedule" means a school schedule
37 and calendar that achieves the benefits described in Subsection (2).

38 (2) (a) The Extended School Year Incentive Program is created to provide a financial
39 incentive for school districts to adopt school schedules and calendars that result in a more
40 efficient use of human resources and capital facilities.

41 (b) The potential benefits of modifying school schedules and calendars include:

42 (i) increased compensation for teachers by providing opportunities for an expanded
43 contract year which will enhance school districts' ability to attract and retain talented and
44 highly qualified personnel;

45 (ii) increased capacity of school buildings by using buildings more hours of the day and
46 more days of the year, resulting in reduced capital facilities costs; and

47 (iii) decreased class sizes created by expanding the number of instructional periods in a
48 year.

49 (3) From monies appropriated for the Extended School Year Incentive Program, the
50 State Board of Education shall award grants to school districts to pay for costs related to
51 converting to an extended school year schedule.

52 (4) The State Board of Education shall:

53 (a) solicit proposals from school districts for the use of grant monies to facilitate the

56 (5) In selecting a grant recipient, the State Board of Education shall consider:

57 (a) the degree to which a school district's proposed conversion to an extended school
58 year schedule achieves the benefits described in Subsection (2); and

59 (b) the unique circumstances of rural districts with small or declining school
60 populations.

61 (6) The focus of an extended school year schedule for a rural district with a small or
62 declining school population shall be to provide opportunities for increased compensation to
63 teachers.

64 (7) To be eligible for a grant, a school district must adopt an extended school year
65 schedule:
