708 lack of diligence, or lack of reasonable care, or the failure to abate a violation of the permit or
709 this chapter due to indifference, lack of diligence, or lack of reasonable care.

710 Section 9. Section **40-8-6** is amended to read:

711 **40-8-6. Board -- Powers, functions, and duties.**

712 In addition to those provided in Title 40, Chapter 6, Board and Division of Oil, Gas,
713 and Mining, the board has the following powers, functions, and duties:

715 3, Utah Administrative Rulemaking Act, that are reasonably necessary to carry out the
716 purposes of this chapter.

717 (2) To hold hearings and to issue orders or other appropriate instruments based upon
718 the results of those hearings.

719 (3) To issue emergency orders according to the requirements and provisions of Title
720 63G, Chapter 4, Administrative Procedures Act.

723 Section 10. Section **40-10-27** is amended to read:

724 **40-10-27. Entry upon land adversely affected by past coal mining practices --**
725 **Conducting of studies or exploratory work -- State acquisition of land -- Lien -- Waste**
726 **disposal fund -- Water pollution control and treatment plants.**

727 (1) (a) If the board, after notice and hearing, makes a finding of fact as provided in
728 Subsection (1)(b), the agents, employees, or contractors of the division shall have the right to
729 enter property adversely affected by past coal mining practices and any other property to have

730 access to property adversely affected by past coal mining practices to do whatever is necessary
731 or expedient to restore, reclaim, abate, control, or prevent the adverse effects.

732 (b) The board shall find that:

733 (i) land or water resources have been adversely affected by past coal mining practices;

734 (ii) the adverse effects are at a stage where, in the public interest, action to restore,
735 reclaim, abate, control, or prevent should be taken; and

736 (iii) the owners of the land or water resources where entry must be made to restore,
737 reclaim, abate, control, or prevent the adverse effects of past coal mining practices:

738 (A) are not known;

739 (B) are not readily available; or

740 (C) will not give permission for the state or its political subdivisions, their agents,
741 employees, or contractors to enter upon the property to restore, reclaim, abate, control, or
742 prevent the adverse effects of past coal mining practices.

743 (c) Notice of the division's right to enter the property shall be:

744 (i) given by mail, if the owners are known; and

745 (ii) posted upon the premises and advertised once in a newspaper of general
746 circulation in the county in which the land lies, if the owners are not known.

747 (d) This entry shall be construed as an exercise of the police power for the protection
748 of public health, safety, and general welfare and may not be construed as an act of
749 condemnation of property nor of trespass on it.

750 (e) The monies expended for this work and the benefits accruing to the premises
751 entered upon shall be chargeable against the land and shall mitigate or offset any claim in or
752 any action brought by any owner of any interest in these premises for any alleged damages by
753 virtue of the entry.

754 (f) This Subsection (1) is not intended to create new rights of action or eliminate
755 existing immunities.

756 (2) (a) The agents, employees, or contractors of the division may enter upon any
757 property for the purpose of conducting studies or exploratory work to determine the existence

758 of adverse effects of past coal mining practices and to determine the feasibility of restoration,
759 reclamation, abatement, control, or prevention of these adverse effects.

760 (b) This entry shall be construed as an exercise of the police power for the protection
761 of public health, safety, and general welfare and may not be construed as an act of
762 condemnation of property or trespass on it.

763 (3) The state may acquire any land by purchase, donation, or condemnation which is
764 adversely affected by past coal mining practices if the board, after notice and hearing,
765 determines that acquisition of this land is necessary to successful reclamation and that:

766 (a) the acquired land, after restoration, reclamation, abatement, control, or prevention
767 of the adverse effects of past coal mining practices, will serve recreation and historic purposes,
768 conservation and reclamation purposes, or provide open space benefits; and

769 (b) (i) permanent facilities such as a treatment plant or a relocated stream channel will
770 be constructed on the land for the restoration, reclamation, abatement, control, or prevention
771 of the adverse effects of past coal mining practices; or

772 (ii) acquisitions of coal refuse disposal sites and all coal refuse on the sites will serve
773 the purposes of this chapter or that public ownership is desirable to meet emergency situations
774 and prevent recurrences of the adverse effects of past coal mining practices.

775 (4) (a) Title to all lands acquired under this section shall be in the name of the state.

776 (b) The price paid for land acquired under this section shall reflect the market value of
777 the land as adversely affected by past coal mining practices.

778 (5) (a) If land acquired under this section is considered suitable for industrial,
779 commercial, residential, or recreational development, the division, in conjunction with the
780 Division of Forestry, Fire, and State Lands, may sell this land by public sale under a system of
781 competitive bidding, at not less than fair market value, and under any other rules promulgated
782 to insure that the land is put to proper use consistent with local and state land use plans.

783 (b) (i) The state, when requested after appropriate public notice, shall hold a public
784 hearing with the appropriate notice, in the counties or appropriate political subdivisions of the
785 state in which lands acquired under this section are located.

786 (ii) The hearing shall be held at a time which shall afford local citizens and
787 governments the maximum opportunity to participate in the decision concerning the use or
788 disposition of the lands after restoration, reclamation, abatement, control, or prevention of the
789 adverse effects of past coal mining practices.

790 (6) (a) The state, through the division and the Division of Forestry, Fire, and State
791 Lands, shall have the authority to accept lands acquired and reclaimed by the Secretary of the
792 Interior pursuant to Section 407(h) of Public Law 95-87.

793 (b) The division has the authority to accept grants from the Secretary to carry out the
794 purposes of Section 407(h) of Public Law 95-87.

795 (7) (a) Within six months after the completion of projects to restore, reclaim, abate,
796 control, or prevent adverse effects of past coal mining practices on privately owned land, the
797 division shall itemize the monies expended and may file a statement of those expenses in the
798 office of the county recorder of the county in which the land lies, together with a notarized
799 appraisal by an independent appraiser of the value of the land before the restoration,
800 reclamation, abatement, control, or prevention of adverse effects of past coal mining practices
801 if the monies expended result in a significant increase in property value.

802 (b) This statement shall constitute a lien upon the land described in it.

803 (c) The lien may not exceed the amount determined by the appraisal to be the increase
804 in the market value of the land as a result of the restoration, reclamation, abatement, control,
805 or prevention of the adverse effects of past coal mining practices.

806 (d) A lien may not be filed against the property of any person, in accordance with this
807 subsection who owned the surface prior to May 2, 1977, and who neither consented to nor
808 participated in nor exercised control over the mining operation which necessitated the
809 reclamation performed.

810 (8) (a) The landowner may proceed to petition within 60 days after the filing of the
811 lien to determine the increase in the market value of the land as a result of the restoration,
812 reclamation, abatement, control, or prevention of the adverse effects of past coal mining
813 practices.

814 (b) The amount reported to be the increase in value of the premises shall constitute the
815 amount of the lien and shall be recorded with the statement provided for in Subsection (7).

816 (c) Any party aggrieved by the decision may appeal as provided by law.

817 (9) (a) The lien provided in this section shall be recorded in the office of the county
818 recorder of the county in which the land lies.

819 (b) The statement shall constitute a lien upon the land as of the date of the expenditure
820 of the monies and shall have priority as a lien second only to the lien of real estate taxes
821 imposed upon the land.

822 (10) (a) The division may fill any voids, seal any abandoned tunnels, shafts, and
823 entryways, and reclaim surface impacts of underground or surface mines which the division
824 determines could endanger life and property, constitute a hazard to the public health and
825 safety, or degrade the environment.

826 (b) The division may make expenditures and carry out the purposes of this section
827 without regard to the provisions of Subsections 40-10-25(2) and (3) only after all reclamation
828 with respect to abandoned coal lands or coal development impacts have been met, except for
829 those reclamation projects relating to the protection of the public health or safety.

830 (c) In those instances where mine waste piles are being reworked for conservation
831 purposes, the incremental costs of disposing of the wastes from these operations by filling
832 voids and sealing tunnels may be eligible for funding if the disposal of these wastes meets the
833 purposes of this section.

834 (d) The division may acquire by purchase, donation, easement, or otherwise those
835 interests in land it determines necessary to carry out the provisions of this section.

836 (11) (a) The division may request the attorney general, who is hereby authorized to
837 initiate, in addition to any other remedies provided for in this chapter, in any court of
838 competent jurisdiction, an action in equity for an injunction to restrain any interference with
839 the exercise of the right to enter or to conduct any work provided in this section.

840 (b) (i) The division, in conjunction with appropriate state agencies as determined in
841 the rules, may construct and operate plants for the control and treatment of water pollution

842 resulting from mine drainage.

843 (ii) The extent of this control and treatment of water pollution may be dependent upon
844 the ultimate use of the water.

845 (iii) This Subsection (11) may not be construed to repeal or supersede any portion of
846 the federal Water Pollution Control Act, 33 U.S.C. Sec. 1151 et seq., and no control or
847 treatment under this Subsection (11) shall in any way be less than that required under the
848 federal Water Pollution Control Act.

849 (iv) The construction of a plant may include major interceptors and other facilities
850 appurtenant to the plant.

851 (c) The division may transfer funds to other appropriate state agencies, in order to
852 carry out the reclamation activities authorized by this chapter.
