79 (b) resolve any dispute regarding:

100 (5) The written decision shall leave to the local government any issue that does not
101 affect the provision of safe, reliable, adequate, and efficient service to customers of the public
102 utility or that does not involve an estimated excess cost.

103 (6) With respect to local government requirements or conditions that impose an
104 estimated excess cost but do not impair the provision of safe, reliable, and adequate service to
105 the customers of the public utility, the written decision shall leave each siting issue to the local
106 government except determination of the estimated excess cost and determination of when the
107 construction of the facility should commence.

108 (7) (a) In determining when the construction of the facility should commence, the
109 board shall consider whether the public utility sought a permit, authorization, approval,
110 exception, or waiver from the local government in a timely manner based upon reasonably
111 foreseeable conditions~~[, and, if]~~.

115 result of requirements or conditions the local government has imposed that do not impair the
116 provision of safe, reliable, and adequate service to customers of the public utility.

117 (c) There is a presumption that the utility has sought a permit, authorization, approval,
118 exception, or waiver in a timely manner if the utility has complied with:

120 Act; and
