

**Senator Aaron Osmond** proposes the following substitute bill:

**CONCURRENT RESOLUTION ON COMMON CORE  
STANDARDS**

2012 GENERAL SESSION

STATE OF UTAH

**Chief Sponsor: Aaron Osmond**

House Sponsor: \_\_\_\_\_

---

---

**LONG TITLE**

**General Description:**

This concurrent resolution of the Legislature and the Governor urges the State Board of Education to continually monitor the board's implementation of the Common Core standards.

**Highlighted Provisions:**

This resolution:

► urges the State Board of Education to continually monitor the board's implementation of the Common Core standards and, in monitoring the implementation, evaluate the cost, control, and quality of Utah standards in comparison to the cost, control, and quality of the Common Core standards.

**Special Clauses:**

None

---

---

*Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:*

WHEREAS, high student performance is fundamentally linked to an overall reform of the public education system through a strong system of accountability and transparency built on state standards;

26 WHEREAS, the responsibility for the upbringing and education of children lies with  
27 parents, supported by local school boards, and the state government;

28 WHEREAS, Utah has an obligation to control Utah's core curriculum, the state of Utah  
29 shall maintain the right to modify its education curriculum without being subject to an entity  
30 outside our state;

31 WHEREAS, in 2009 and 2010, the state was offered the chance to compete for  
32 education funding through the Race to the Top (RTTT) program created by the United States  
33 Department of Education;

34 WHEREAS, the only way to achieve a score in the RTTT competition sufficient to  
35 qualify for funding was to agree to participate in a consortium of states working toward jointly  
36 developing and adopting a common set of kindergarten through grade 12 curriculum standards;

37 WHEREAS, the only common set of kindergarten through grade 12 curriculum  
38 standards is the set of standards developed through the Common Core State Standards  
39 Initiative, which was created without a grant of authority from any state;

40 WHEREAS, locally elected officials, school leaders, teachers, and parents were not  
41 included in the discussion, evaluation, and preparation of the Common Core standards;

42 WHEREAS, citizens and elected officials had no opportunity to review or comment on  
43 the Common Core standards and states were not offered an option to modify the standards  
44 before adoption;

45 WHEREAS, no empirical evidence indicates that centralized education standards result  
46 in higher student achievement;

47 WHEREAS, the National Assessment of Educational Progress (NAEP) currently allows  
48 comparisons of academic achievement to be made across states without the necessity of  
49 imposing national standards or curricula;

50 WHEREAS, common standards will impair the ability of local stakeholders to innovate  
51 and continue to make improvement over time;

52 WHEREAS, Race to the Top funding for states is limited, and \$350 million for  
53 consortia to develop new assessments aligned with the Common Core standards is not  
54 sufficient to cover the costs of overhauling state accountability systems, which includes  
55 implementation of standards and testing, associated professional development, and curriculum  
56 restructuring;

57 WHEREAS, all entities, public and private, that receive taxpayer funds either directly  
58 or in the form of a grant, stipend, or any other means are accountable to Utah taxpayers, and the  
59 State Board of Education is required annually to post on the Utah Public Finance Website  
60 created in Section 63A-3-402, any funds received or spent on development of Utah's core  
61 curriculum as a result of the Common Core;

62 WHEREAS, the centralized decision making that governs the Common Core standards  
63 is vulnerable to manipulation by special interest groups who over time may seek to lower the  
64 rigor and quality of the standards;

65 WHEREAS, the United States Constitution, which recognizes Utah as a sovereign  
66 republic, acknowledges that the federal government has no educational mandate or authority  
67 and allows the states to direct their own education systems;

68 WHEREAS, Utah is a governing member of the Smarter Balance Assessment  
69 Consortium (SBAC); and

70 WHEREAS, Utah should neither relinquish nor cede control of our education system to  
71 a consortium of other states or to the federal government:

72 NOW, THEREFORE BE IT RESOLVED that the Legislature of the state of Utah, the  
73 Governor concurring therein, urges the State Board of Education to continually monitor the  
74 board's implementation of the Common Core standards and, in monitoring the board's  
75 implementation, evaluate the cost, control, and quality of Utah standards and assessments, if  
76 the board were to implement Utah standards and assessments, compared to the cost, control,  
77 and quality of the implementation of the Common Core standards and SBAC assessments.
