(ii) 90% of students attain proficiency in reading by the end of third grade;

(iii) Utah places in the top ten of states in reading and math proficiency as measured by the National Assessment of Educational Progress and the ACT; or

(iv) Utah places in the top ten of states in high school graduation as measured by state high school graduation rates calculated in accordance with the U.S. Department of Education guidelines;

(b) broaden students' educational experiences and opportunities through programs of cultural importance; or

(c) can be done more productively through statewide programs rather than through local initiatives.

(b) In determining the cost of driver education, a school district may exclude:

(i) the full-time equivalent cost of a teacher for a driver education class taught during regular school hours; and

(ii) classroom space and classroom maintenance.

(c) A school district may not use any additional school funds beyond those allowed under Subsection (1)(b) to subsidize driver education.

(2) (a) The state superintendent of public instruction shall, prior to September 2nd following the school year during which it was expended, or may at earlier intervals during that school year, reimburse each school district that applied for reimbursement in accordance with this section.

(5) If the amount of money in the account at the end of a school year is less than the total of the reimbursable costs, the state superintendent of public instruction shall allocate the money to each school district in the same proportion that its reimbursable costs bear to the total reimbursable costs of all school districts.

(6) If the amount of money in the account at the end of any school year is more than the total of the reimbursement costs provided under Subsection (4), the superintendent may allocate the excess funds to school districts:

- (a) to reimburse each school district that applies for reimbursement of the cost of a fee waived under Section 53A-12-103 for driver education; and

### **53A-17a-106. Determination of weighted pupil units.**

The number of weighted pupil units in the minimum school program for each year is the total of the units for each school district determined as follows:

(1) The number of units is computed by adding the average daily membership of all pupils of the district attending schools, other than kindergarten and self-contained classes for children with a disability, and multiplying the total by 1.1694.

(2) The number of units is computed by adding the average daily membership of all pupils of the district enrolled in kindergarten and multiplying the total by ~~1.55~~ .64317.

(a) In those districts that do not elect to hold kindergarten for a full nine-month term, the local school board may approve a shorter term of nine weeks' duration.

(b) Upon board approval, the number of pupils in average daily membership at the short-term kindergarten shall be counted for the purpose of determining the number of units allowed in the same ratio as the number of days the short-term kindergarten is held, not exceeding nine weeks, compared to the total number of days schools are held in that district in the regular school year.

(3) (a) The State Board of Education shall use prior year plus growth to determine average daily membership in distributing money under the minimum school program where the distribution is based on kindergarten through grade 12 ADMs or weighted pupil units.

(b) Under prior year plus growth, kindergarten through grade 12 average daily membership for the current year is based on the actual kindergarten through grade 12 average daily membership for the previous year plus an estimated percentage growth factor.

## **HB0001S01 compared with HB0001**

(c) The growth factor is the percentage increase in total average daily membership on the first school day of October in the current year as compared to the total average daily membership on the first school day of October of the previous year.

Section 5. Section 53A-17a-111 is amended to read:

**53A-17a-111. Weighted pupil units for programs for students with disabilities --  
District allocation.**

(2) Disability program money allocated to districts is restricted and shall be spent for the education of students with disabilities but may include expenditures for approved programs of services conducted for certified instructional personnel who have students with disabilities in their classes.

(3) The State Board of Education shall establish and strictly interpret definitions and provide standards for determining which students have disabilities and shall assist districts in determining the services that should be provided to students with disabilities.

(4) Each year the board shall evaluate the standards and guidelines that establish the identifying criteria for disability classifications to assure strict compliance with those standards by the districts.

(5) (a) Money appropriated to the State Board of Education for add-on WPU for students with disabilities enrolled in regular programs shall be allocated to school districts as provided in this Subsection (5).

(b) Beginning on July 1, 2003, the State Board of Education shall:

(i) use a district's average number of special education add-on weighted pupil units determined by the previous five year's average daily membership data as a foundation for the special education add-on appropriation; and

(ii) implement a hold harmless provision for up to three years as needed to accomplish a phase-in period for school districts to accommodate the change in the special education add-on WPU foundation formula.

(c) A district's special education add-on WPU for the current year may not be less than

## HB0001S01 compared with HB0001

the foundation special education add-on WPU.

(d) Growth WPUs shall be added to the prior year special education add-on WPUs, and growth WPUs shall be determined as follows:

(i) The special education student growth factor is calculated by comparing S-3 total special education ADM of two years previous to the current year to the S-3 total special education ADM three years previous to the current year, not to exceed the official October total district growth factor from the prior year.

(ii) When calculating and applying the growth factor, a district's S-3 total special education ADM for a given year is limited to 12.18% of the district's S-3 total student ADM for the same year.

(iii) Growth ADMs are calculated by applying the growth factor to the S-3 total special education ADM of two years previous to the current year.

(iv) Growth ADMs for each district are multiplied by 1.53 weighted pupil units and added to the prior year special education add-on WPU to determine each district's total allocation.

(6) If money appropriated under this chapter for programs for students with disabilities does not meet the costs of districts for those programs, each district shall first receive the amount generated for each student with a disability under the basic program.

~~{Section 1}~~ (7) The number of weighted pupil units for students with a disability in self-contained classes is computed by multiplying the average daily membership of students with a disability in self-contained classes by 1.16984.

Section 6. Section **53A-17a-135** is amended to read:

**53A-17a-135. Minimum basic tax rate -- Certified revenue levy.**

(1) (a) In order to qualify for receipt of the state contribution toward the basic program and as its contribution toward its costs of the basic program, each school district shall impose a minimum basic tax rate per dollar of taxable value that generates [~~\$294,092,000~~] \$296,709,700 in revenues statewide.

(b) The preliminary estimate for the [~~2013-14~~] 2014-15 minimum basic tax rate is [~~.001691~~] .001477.

(c) The State Tax Commission shall certify on or before June 22 the rate that generates [~~\$294,092,000~~] \$296,709,700 in revenues statewide.

## HB0001S01 compared with HB0001

(d) If the minimum basic tax rate exceeds the certified revenue levy as defined in Section 53A-17a-103, the state is subject to the notice requirements of Section 59-2-926.

(2) (a) The state shall contribute to each district toward the cost of the basic program in the district that portion which exceeds the proceeds of the levy authorized under Subsection (1).

(b) In accord with the state strategic plan for public education and to fulfill its responsibility for the development and implementation of that plan, the Legislature instructs the State Board of Education, the governor, and the Office of Legislative Fiscal Analyst in each of the coming five years to develop budgets that will fully fund student enrollment growth.

(3) (a) If the proceeds of the levy authorized under Subsection (1) equal or exceed the cost of the basic program in a school district, no state contribution shall be made to the basic program.

(b) The proceeds of the levy authorized under Subsection (1) which exceed the cost of the basic program shall be paid into the Uniform School Fund as provided by law.
